Research outputs
Listing of Research outputs

**An MMP-inhibitor modified adhesive primer enhances bond durability to carious dentin**
Research output: Contribution to journal › Article › peer-review

**Microbiochemical Analysis of Carious Dentine Using Raman and Fluorescence Spectroscopy**
Research output: Contribution to journal › Article › peer-review

**Effects of MMP Inhibitors Incorporated within Dental Adhesives**
Research output: Contribution to journal › Article › peer-review

The above report is produced using the following setup
Ordered by: null
