Listing of Research outputs

Is there a causal link between intracellular na elevation and metabolic remodelling in cardiac hypertrophy?

Aksentijevic, D., O'Brien, B. A., Eykyn, T. R. & Shattock, M. J., 3 Jul 2018, In : Biochemical Society Transactions. 46, 4, p. 817-827 11 p.

Research output: Contribution to journal › Review article

Proteomic and metabolomic changes driven by elevating myocardial creatine suggest novel metabolic feedback mechanisms

Zervou, S., Yin, X., A. Nabeebaccus, A., O'Brien, B., L. Cross, R., McAndrew, D. J., Atkinson, A., Eykyn, T., Mayr, M., Neubauer, S. & Lygate, C. A., 3 May 2016, In : AMINO ACIDS. p. 1-13 13 p.

Research output: Contribution to journal › Article
