Listing of Research output

**Further Applications of the Gabbay-Rodrigues Iteration Schema in Argumentation and Revision Theories**
Research output: Chapter in Book/Report/Conference proceeding › Chapter

**Equilibrium states in numerical argumentation networks**
Research output: Contribution to journal › Article

**Probabilistic argumentation: An equational approach**
Research output: Contribution to journal › Article

**A self-correcting iteration schema for argumentation networks**
Research output: Chapter in Book/Report/Conference proceeding › Conference paper

**An equational approach to the merging of argumentation networks**
Research output: Contribution to journal › Conference paper

**Two dimensional Standard Deontic Logic [including a detailed analysis of the 1985 Jones-Porn deontic logic system]**
Research output: Contribution to journal › Article

**A Numerical Approach to the Merging of Argumentation Networks**
Research output: Chapter in Book/Report/Conference proceeding › Conference paper

**Interpolable Formulas in Equilibrium Logic and Answer Set Programming**
Research output: Contribution to journal › Article

**Reactive automata**
Research output: Contribution to journal › Article

**Reactive intuitionistic tableaux**
Research output: Contribution to journal › Article

**Logical Analysis of the Talmudic Rules of General and Specific (Klalim-u-Pratim)**
Research output: Contribution to journal › Article

**Uncertainty Rules in Talmudic Reasoning**
Research output: Contribution to journal › Article
A Theory of Hierarchical Consequence and Conditionals
Gabbay, D. & Schlechta, K. 2010 In : Journal of Logic, Language & Information.
Research output: Contribution to journal › Article

Logical Tools for Handling Change in Agent-Based Systems
Gabbay, D. 2010 Springer.
Research output: Book/Report › Book

Reactive links to save automata states
Research output: Chapter in Book/Report/Conference proceeding › Conference paper

Revision, Acceptability and Context
Research output: Book/Report › Book

A Logical Account of Formal Argumentation
Research output: Contribution to journal › Article

Annotation Theories over Finite Graphs
Research output: Contribution to journal › Article

Fibring Argumentation Frames
Research output: Contribution to journal › Article

Logical Modes of Attack in Argumentation Networks
Research output: Contribution to journal › Article

Meta-Argumentation Modelling I: Methodology and Techniques
Research output: Contribution to journal › Article

Modal Logics of Reactive Frames
Research output: Contribution to journal › Article

Modal Provability Foundations for Argumentation Networks
Research output: Contribution to journal › Article

Semantics for Higher Level Attacks in Extended Argumentation Frames
Research output: Contribution to journal › Article

A Meta-model of Access Control in a Fibred Security Language
Research output: Contribution to journal › Article

Analysis of the Talmudic Argumentum A Fortiori Inference Rule (Kal Vachomer) using Matrix Abduction
Research output: Contribution to journal › Article
Medieval and Renaissance Logic
Research output: Book/Report › Book

Reactive Kripke Semantics and Arc Accessibility
Research output: Chapter in Book/Report/Conference proceeding › Other chapter contribution

The Many-valued and Nonmonotonic Turn in Logic
Research output: Book/Report › Book

Connectionist computations of intuitionistic reasoning
Research output: Contribution to journal › Article

Belief revision, belief merging and voting
Research output: Chapter in Book/Report/Conference proceeding › Conference paper

Algebra of Measurements: The Logical Structure of Quantum Mechanics
Research output: Contribution to journal › Article

Advice on Abductive Logic
Research output: Contribution to journal › Article

Context-dependent abduction and relevance
Research output: Contribution to journal › Article

A Connectionist Model for Constructive Modal Reasoning
Research output: Chapter in Book/Report/Conference proceeding › Conference paper

Cut and Pay
Research output: Contribution to journal › Article

Filtration Structures and the Cut Down Problem for Abduction
Research output: Chapter in Book/Report/Conference proceeding › Conference paper

Getting possibilities from the impossible
Research output: Chapter in Book/Report/Conference proceeding › Conference paper
Modal varieties of temporal logic
Research output: Chapter in Book/Report/Conference proceeding › Chapter

Proof Theory for Propositional Fuzzy Logic
Research output: Contribution to journal › Article

Sequent and Hypersequent calculi
Research output: Contribution to journal › Article

Temporal Dynamics of Argumentation Networks
Research output: Contribution to journal › Article

The Reach of Abduction: Insight and Trial (A Practical Logic of Cognitive Systems, vol. 2)
Research output: Book/Report › Book

Analytic calculi for product logics
Research output: Contribution to journal › Article

Logic and Law
Research output: Contribution to journal › Article

Advice on Abductive Logic
Gabbay, D. & Woods, J. 2004 *Unknown*. Unknown Publisher
Research output: Chapter in Book/Report/Conference proceeding › Conference paper

Advice on a Formal Model of Abduction
Gabbay, D. & Woods, J. 2004 *Unknown*. Unknown Publisher
Research output: Chapter in Book/Report/Conference proceeding › Conference paper

Applying connectionist modal logics to distributed knowledge representation problems
Research output: Contribution to journal › Article

Argumentation neural networks
Research output: Contribution to journal › Conference paper

Belief Contraction, Anti-formulae and Resource Overdraft: Part II Deletion in Resource Unbounded Logics
Research output: Chapter in Book/Report/Conference proceeding › Chapter

Compiled Labelled Deductive Systems for Modal and Conditional Logics
Research output: Book/Report › Book
Fibring Neural Networks
Research output: Chapter in Book/Report/Conference proceeding › Conference paper

Goal-directed methods for Lukasiewicz logic
Research output: Chapter in Book/Report/Conference proceeding › Conference paper

Handbook of the history of logic. Vol. 1, Greek, Indian and Arabic logic
Research output: Book/Report › Book

Hypersequents and Fuzzy Logic
Research output: Contribution to journal › Article

Logics of Context
Finance
Research output: Chapter in Book/Report/Conference proceeding › Other chapter contribution

Recursive Causality In Bayesian Networks and Self Fibring
Research output: Chapter in Book/Report/Conference proceeding › Conference paper

Restart as a Computational Rule
Gabbay, D., Gabbay, M. J. & Gabbay, M. 2004 Unknown. Unknown Publisher
Research output: Chapter in Book/Report/Conference proceeding › Conference paper

The rise of modern logic : from Leibniz to Frege. Vol. 3
Research output: Book/Report › Book

Towards Connectionist Argumentation Frameworks
Research output: Chapter in Book/Report/Conference proceeding › Conference paper

Controlled revision - An algorithmic approach for belief revision
Research output: Contribution to journal › Conference paper

A practical logic of cognitive systems
Research output: Book/Report › Book

Agenda Relevance
Research output: Book/Report › Book

Agenda relevance : a study in formal pragmatics
Controlled Revision - A Preliminary Account
Research output: Contribution to journal › Article

Distributed knowledge representation in neural-symbolic learning systems
Research output: Chapter in Book/Report/Conference proceeding › Conference paper

Foundations of revision and contraction: the Third De Morgan Conference
Research output: Book/Report › Book

Fuzzy Logic without Weakening
Gabbay, D. M., Metcalfe, G. & Olivetti, N. 2003 In : NEURAL NETWORK WORLD.
Research output: Contribution to journal › Article

Goal-directed calculi for Gödel-Dummett logics
Research output: Chapter in Book/Report/Conference proceeding › Conference paper

Halfway between points and intervals. A temporal logic based on ordered trees
Research output: Chapter in Book/Report/Conference proceeding › Conference paper

Research output: Book/Report › Book

Many-dimensional modal logics: theory and applications
Research output: Book/Report › Book

Neural-Symbolic Intuitionistic Reasoning
Research output: Chapter in Book/Report/Conference proceeding › Conference paper

Proof theory for product logics
Research output: Chapter in Book/Report/Conference proceeding › Conference paper

Special issue on trees in linguistics, logic and computer science
Gabbay, D. M. & Goranko, V. 2003 In : RESEARCH ON LANGUAGE AND SOCIAL INTERACTION. 1, 3-4, p. 179 - l-ii and 1
Research output: Contribution to journal › Article
Frontiers of combining systems 2
Research output: Book/Report › Book

Goal-directed proof theory
Research output: Book/Report › Book

Logic and algebraic methods
Research output: Book/Report › Book

Logic, grammar and language
Research output: Book/Report › Book

On modal logics characterized by models with relative accessibility relations. I
Research output: Contribution to journal › Article

On modal logics characterized by models with relative accessibility relations. II
Research output: Contribution to journal › Article

Revision by Translation
Research output: Chapter in Book/Report/Conference proceeding › Chapter

Structured contexts with fibred semantics
Research output: Chapter in Book/Report/Conference proceeding › Conference paper

Syntactic computation as labelled deduction: WH a case study
Research output: Contribution to journal › Conference paper

Temporal logic
Research output: Book/Report › Book

Structured Belief Bases: a practical approach to prioritised base revision
Research output: Chapter in Book/Report/Conference proceeding › Conference paper

Structured Databases: a framework to reason about Belief Change
Research output: Chapter in Book/Report/Conference proceeding › Conference paper
A methodology for iterated Theory Change

Research output: Chapter in Book/Report/Conference proceeding › Conference paper
