Research outputs
Listing of Research outputs

**Validation of cGMP-compliant human pluripotent stem cell-derived hepatocytes for cell-based therapy**
Research output: Contribution to journal › Article

**Prospects for the Use of Induced Pluripotent Stem Cells (iPSC) in Animal Conservation and Environmental Protection**
Research output: Contribution to journal › Article

**Author Correction: Segregation of mitochondrial DNA heteroplasmy through a developmental genetic bottleneck in human embryos**
Research output: Contribution to journal › Letter

**Segregation of mitochondrial DNA heteroplasmy through a developmental genetic bottleneck in human embryos**
Research output: Contribution to journal › Letter

**Validation of Current Good Manufacturing Practice Compliant Human Pluripotent Stem Cell-Derived Hepatocytes for Cell-Based Therapy**
Research output: Contribution to journal › Article

**Induced pluripotent stem cell line from an atopic dermatitis patient heterozygous for c.2282del4 mutation in filaggrin: KCLi001-A**
Research output: Contribution to journal › Article

**Pluripotent state transitions coordinate morphogenesis in mouse and human embryos**
Research output: Contribution to journal › Letter

**Effects of maternal obesity on Wharton's Jelly mesenchymal stromal cells**
Research output: Contribution to journal › Article

**Latest developments in the field of stem cell research and regenerative medicine compiled from publicly available information and press releases from nonacademic institutions 1-30 June, 2017**
Research output: Contribution to journal › Article

**Latest developments in the field of stem cell research and regenerative medicine compiled from publicly available information and press releases from nonacademic institutions 1 April-31 May 2017**
Research output: Contribution to journal › Article
Latest developments in the field of stem cell research and regenerative medicine compiled from publicly available information and press releases from nonacademic institutions, 1 January-28 February 2017
Research output: Contribution to journal › Review article

Human pluripotent stem cells recurrently acquire and expand dominant negative P53 mutations
Research output: Contribution to journal › Article

239 - Maternal obesity alters characteristics of Wharton's Jelly mesenchymal stromal cells: ISCT 2017 Annual Meeting
Research output: Contribution to journal › Article

Concise Review: Human Embryonic Stem Cells: What Have We Done? What Are We Doing? Where Are We Going?
Research output: Contribution to journal › Review article

Human embryos from induced pluripotent stem cell-derived gametes: Ethical and quality considerations
Research output: Contribution to journal › Review article

IPSC in the past decade: The Japanese dominance
Research output: Contribution to journal › Review article

Human embryos created by embryo splitting secrete significantly lower levels of miRNA-30c
Research output: Contribution to journal › Article

Latest developments in the field of stem cell research and regenerative medicine compiled from publicly available information and press releases from nonacademic institutions 1-31 March 2016
Research output: Contribution to journal › Review article

Self-organization of the human embryo in the absence of maternal tissues
Research output: Contribution to journal › Article

Generation of KCL012 research grade human embryonic stem cell line carrying a mutation in the HTT gene
Research output: Contribution to journal › Article

Generation of KCL013 research grade human embryonic stem cell line carrying a mutation in the HTT gene
Research output: Contribution to journal › Article
Generation of KCL029 research grade human embryonic stem cell line carrying a mutation in WAS gene
Research output: Contribution to journal › Article

Generation of KCL031 clinical grade human embryonic stem cell line
Research output: Contribution to journal › Article

Generation of KCL032 clinical grade human embryonic stem cell line
Research output: Contribution to journal › Article

Generation of KCL034 clinical grade human embryonic stem cell line
Research output: Contribution to journal › Article

Generation of KCL037 clinical grade human embryonic stem cell line
Research output: Contribution to journal › Article

Generation of KCL039 clinical grade human embryonic stem cell line
Research output: Contribution to journal › Article

Discordant Growth of Monozygotic Twins Starts at the Blastocyst Stage: A Case Study
Research output: Contribution to journal › Article

Human embryonic and induced pluripotent stem cells in clinical trials
Research output: Contribution to journal › Article

Developmental clock compromises human twin model created by embryo splitting
Research output: Contribution to journal › Article

The Molecular Karyotype of 25 Clinical-Grade Human Embryonic Stem Cell Lines
Research output: Contribution to journal › Article

Latest developments in the field of stem cell research and regenerative medicine compiled from publicly available information and press releases from nonacademic institutions 1-31 July 2015
Research output: Contribution to journal › Comment/debate

Three Huntington’s Disease Specific Mutation-Carrying Human Embryonic Stem Cell Lines Have Stable Number of CAG Repeats upon In Vitro Differentiation Into Cardiomyocytes
Stem cell based therapy-where are we going?
Research output: Contribution to journal › Editorial

Derivation and feeder-free propagation of human embryonic stem cells under xeno-free conditions
Research output: Contribution to journal › Article

Human embryonic stem cells derived from embryos at different stages of development share similar transcription profiles
Research output: Contribution to journal › Article

Conversion of Mechanical Force into TGF-beta-Mediated Biochemical Signals
Research output: Contribution to journal › Article

Stem cells in regenerative medicine: introduction
Research output: Contribution to journal › Editorial

GROα regulates human embryonic stem cell self-renewal or adoption of a neuronal fate
Krtolica, A., Larocque, N., Genbacev, O., Ilic, D., Coppe, J-P., Patil, C. K., Zdravkovic, T., McMaster, M., Campisi, J. & Fisher, S. J. Apr 2011 In : Differentiation; research in biological diversity. 81, 4, p. 222-232 11 p., N/A
Research output: Contribution to journal › Article

Safety paradigm: genetic evaluation of therapeutic grade human embryonic stem cells
Research output: Contribution to journal › Literature review

Stem cell therapies for recessive dystrophic epidermolysis bullosa
Research output: Contribution to journal › Literature review

Conference scene: Challenges to commercialization
Ilic, D. & Gentleman, E. May 2010 In : Regenerative Medicine. 5, 3, p. 341-343 3 p., N/A
Research output: Contribution to journal › Article

Nuclear FAK promotes cell proliferation and survival through FERM-enhanced p53 degradation
Research output: Contribution to journal › Article

PyK2 and FAK connections to p190Rho guanine nucleotide exchange factor regulate RhoA activity, focal adhesion formation, and cell motility
Research output: Contribution to journal › Article
