Research outputs
Listing of Research outputs

Unconventional Practitioners' Causal Beliefs and Treatment Strategies for Chronic low back pain in Rural Nigeria
Research output: Contribution to journal › Article

Comprehension and face validity of the Exercise Adherence Rating Scale in patients with persistent musculoskeletal pain
Research output: Contribution to journal › Article

Treatment fidelity in the Camden Weight Loss (CAMWEL) intervention assessed from recordings of advisor-participant consultations
Noble, L. M., Godfrey, E., Al-Baba, L., Baez, G., Thorogood, N. & Nanchahal, K. 10 Sep 2018 In : BMC Obesity. 5, 1, 24
Research output: Contribution to journal › Article

Exploring professional circus artists' experience of performance-related injury and management: A qualitative study
Cayrol, T., Godfrey, E. L., Draper- Rodi, J. & Bearne, L. M. 1 Aug 2018 (Accepted/In press) In : MEDICAL PROBLEMS OF PERFORMING ARTISTS.
Research output: Contribution to journal › Article

Behaviour change techniques associated with adherence to prescribed exercise in patients with persistent musculoskeletal pain: Systematic review
Research output: Contribution to journal › Article

Physical activity containing behavioural interventions for adults living with modifiable chronic non-communicable diseases in Africa: A systematic mixed-studies review
Research output: Contribution to journal › Article

The development and testing of PSYCHLOPS Kids: A new child-centred outcome measure
Research output: Contribution to journal › Article

Assessing self-reported disability in a low-literate population with chronic low back pain: cross-cultural adaptation and psychometric testing of Igbo Roland Morris disability questionnaire
Research output: Contribution to journal › Article

Visually induced dizziness in children and validation of the Pediatric Visually Induced Dizziness Questionnaire
Research output: Contribution to journal › Article

Biopsychosocial factors associated with chronic low back pain disability in rural Nigeria: a population-based crosssectional study
Research output: Contribution to journal › Article

Biopsychosocial factors associated with chronic low back pain disability in rural Nigeria: a population-based cross-sectional study.
Research output: Contribution to journal › Article
Feasibility of a Physiotherapist-led community-based self-management programme for reducing non-specific chronic low back pain disability in rural Nigeria: Physiotherapist-led; Community-based, self-management
Research output: Chapter in Book/Report/Conference proceeding › Conference paper

Critchley, D. J., Holmes, M. G., Wileman, V., McCracken, L. & Godfrey, E. 1 Dec 2016 In : PHYSIOTHERAPY. 102, Supplement 1, p. e230-e231
Research output: Contribution to journal › Article

The development and initial psychometric evaluation of a measure assessing adherence to prescribed exercise: The Exercise Adherence Rating Scale (EARS)
Research output: Contribution to journal › Article

Behaviour change intervention components for improving physical activity in people with chronic non-communicable diseases in Africa: A systematic mixed-studies review
Research output: Chapter in Book/Report/Conference proceeding › Conference paper

Physiotherapy Informed by Acceptance and Commitment Therapy (PACT): Protocol for a randomised controlled trial of PACT versus usual physiotherapy care for adults with chronic low back pain
Research output: Contribution to journal › Article

"A life of living death": the experiences of people living with chronic low back pain in rural Nigeria
Research output: Contribution to journal › Article

The Pediatric Vestibular Symptom Questionnaire: A validation study
Research output: Contribution to journal › Article

An exploration of the impact of dramatherapy on the whole system supporting children and young people on the autistic spectrum.
Research output: Chapter in Book/Report/Conference proceeding › Chapter

Effective components of exercise and physical activity-related behaviour change interventions for chronic non-communicable diseases in Africa: protocol for a systematic mixed studies review with meta-analysis
Research output: Contribution to journal › Article

PHYSIOTHERAPY INFORMED BY ACCEPTANCE AND COMMITMENT THERAPY FOR PERSISTENT LOW BACK PAIN: THE PACT STUDY
Development of a measure to assess adherence to exercise: the Exercise Adherence Rating Scale (EARS)
Research output: Chapter in Book/Report/Conference proceeding » Conference paper

Individual and intervention-related factors associated with adherence to home exercise in chronic low back pain: A systematic review
Research output: Contribution to journal » Article

Benefits of dramatherapy for Autism Spectrum Disorder: a qualitative analysis of feedback from parents and teachers of clients attending Roundabout dramatherapy sessions in schools
Research output: Contribution to journal » Article

Patients' perceptions of a brief physiotherapist delivered treatment incorporating psychological flexibility for patients with chronic low back pain: a qualitative study
Research output: Contribution to journal » Article

Roundabout and the Development of PSYCHLOPS Kids Evaluation
Research output: Chapter in Book/Report/Conference proceeding » Chapter

Therapeutic Writing as an Intervention for Symptoms of Bulimia Nervosa: Effects and Mechanism of Change
Research output: Contribution to journal » Article

A Qualitative Study of the Quality of Life of Children Receiving Intravenous Nutrition at Home
Research output: Contribution to journal » Article

Chronic fatigue syndrome in adolescents: Do parental expectations of their child's intellectual ability match the child's ability?
Research output: Contribution to journal » Article

The neural correlates of fatigue: an exploratory imaginal fatigue provocation study in chronic fatigue syndrome
Research output: Contribution to journal » Article

Investigating the active ingredients of cognitive behaviour therapy and counselling for patients with chronic fatigue in primary care: developing a new process measure to assess treatment fidelity and predict outcome
Research output: Contribution to journal » Article

Probing the working memory system in chronic fatigue syndrome: a functional magnetic resonance imaging study using the n-back task
Research output: Contribution to journal › Article

Measuring mental health outcomes in primary care: The psychometric properties of a new patient-generated outcome measure, 'PSYCHLOPS' ('psychological outcome profiles')
Research output: Contribution to journal › Article

The experiences of therapists using a new client-centred psychometric instrument,'PSYCHLOPS' ('Psychological Outcome Profiles').
Research output: Contribution to journal › Article

Psychiatry as a career choice compared with other specialties: A survey of medical students
Research output: Contribution to journal › Article

A client-generated psychometric instrument: the development of "PSYCHLOPS"
Research output: Contribution to journal › Article

Perceptions of psychological content in the GP consultation - the role of practice, personal and prescribing attributes
Research output: Contribution to journal › Article

Predictors of outcome in a fatigued population in primary care following a randomised controlled trial.
Research output: Contribution to journal › Article

Detecting psychological content in the General Practitioner consultation - the role of practice, personal and prescribing attributes.
Research output: Contribution to journal › Article

Chronic fatigue in general practice: is counselling as good as cognitive behaviour therapy? A UK randomised trial
Research output: Contribution to journal › Article

Chronic fatigue in general practice - Response
Research output: Contribution to journal › Letter

Chronic fatigue in general practice: economic evaluation of counselling versus cognitive behaviour therapy
Research output: Contribution to journal › Article

Cognitive behaviour therapy and chronic fatigue syndrome - Response
Research output: Contribution to journal › Letter
