Research outputs
Listing of Research outputs

Identification of downstream effectors of retinoic acid specifying the zebrafish pancreas by integrative genomics
Research output: Contribution to journal › Article › peer-review

Fgf-driven Tbx protein activities directly induce myf5 and myod to initiate zebrafish myogenesis
Research output: Contribution to journal › Article › peer-review

Master control: transcriptional regulation of mammalian Myod
Research output: Contribution to journal › Article › peer-review

In Vivo Regulation of the Zebrafish Endoderm Progenitor Niche by T-Box Transcription Factors
Research output: Contribution to journal › Article › peer-review

The chromatin remodeling factor CHD7 controls cerebellar development by regulating reelin expression
Research output: Contribution to journal › Article › peer-review

miR-195 inhibits tumor growth and angiogenesis through modulating IRS1 in breast cancer
Research output: Contribution to journal › Article › peer-review

"Young at heart": Regenerative potential linked to immature cardiac phenotypes
Research output: Contribution to journal › Article › peer-review

Tbx6, Mesp-b and Ripply1 regulate the onset of skeletal myogenesis in zebrafish
Research output: Contribution to journal › Article › peer-review

A ChIP on the shoulder? Chromatin immunoprecipitation and validation strategies for ChIP antibodies
Research output: Contribution to journal › Review article › peer-review

Global identification of Smad2 and Eomesodermin targets in zebrafish identifies a conserved transcriptional network in mesendoderm and a novel role for Eomesodermin in repression of ectodermal gene expression
Research output: Contribution to journal › Article › peer-review

Fish genomics: casting the net wide
Teasing out T-box targets in early mesoderm
Research output: Contribution to journal › Article › peer-review

Prrdm1- and Sox6-mediated transcriptional repression specifies muscle fibre type in the zebrafish embryo
Research output: Contribution to journal › Article › peer-review

Germ layer induction in ESC - following the vertebrate roadmap
Research output: Contribution to journal › Article › peer-review

Transcriptional regulation of mesendoderm formation in Xenopus
Research output: Contribution to journal › Article › peer-review

Zebrafish promoter microarrays identify actively transcribed embryonic genes
Research output: Contribution to journal › Article › peer-review

Functional specificity of the Xenopus T-domain protein brachyury is conferred by its ability to interact with Smad1
Research output: Contribution to journal › Article › peer-review

Identification and characterisation of the posteriorly-expressed Xenopus neurotrophin receptor homolog genes fullback and fullback-like
Research output: Contribution to journal › Article › peer-review

Refinement of gene expression patterns in the early Xenopus embryo
Research output: Contribution to journal › Article › peer-review

nlz gene family is required for hindbrain patterning in the zebrafish
Research output: Contribution to journal › Article › peer-review

Identifying transcriptional targets
Research output: Contribution to journal › Article › peer-review

What's your position? The Xenopus cement gland as a paradigm of regional specification
Research output: Contribution to journal › Article › peer-review

Response of single cells to growth factors
Research output: Contribution to journal › Meeting abstract
Cement gland-specific activation of the Xag1 promoter is regulated by co-operation of putative Ets and ATF/CREB transcription factors
Research output: Contribution to journal › Article › peer-review

Characterization of promoter elements that regulate opl (Xzic1) transcription in the Xenopus neurectoderm
Research output: Contribution to journal › Meeting abstract

BMP1-related metalloproteinases promote the development of ventral mesoderm in early Xenopus embryos
Research output: Contribution to journal › Article › peer-review

Control of axis formation in Xenopus by the NF-KAPPA-B-I-KAPPA-B system
Research output: Contribution to journal › Article › peer-review

The above report is produced using the following setup
Ordered by: null
