Research outputs

Listing of Research outputs

On race and ethnicity during a global pandemic: An ‘imperfect mosaic’ of maternal and child health services in ethnically-diverse South London, United Kingdom

Research output: Contribution to journal › Article › peer-review

Navigating Uncertainty Alone: A grounded theory analysis of women’s psycho-social experiences of pregnancy and childbirth during the COVID-19 Pandemic in London

Research output: Contribution to journal › Article › peer-review

Effect of Self-monitoring of Blood Pressure on Blood Pressure Control in Pregnant Individuals with Chronic or Gestational Hypertension: The BUMP 2 Randomized Clinical Trial

Research output: Contribution to journal › Article › peer-review

Effect of Self-monitoring of Blood Pressure on Diagnosis of Hypertension during Higher-Risk Pregnancy: The BUMP 1 Randomized Clinical Trial

Research output: Contribution to journal › Article › peer-review

Breaking the silence about obstetric violence: Body mapping women’s narratives of respect, disrespect and abuse during childbirth in Bihar, India

Research output: Contribution to journal › Article › peer-review

Re. The web-based application "QUiPP v.2" for the prediction of preterm birth in symptomatic women is not yet ready for worldwide clinical use: ten reflections on development, validation and use.*

Research output: Contribution to journal › Letter › peer-review

The United Kingdom and the Netherlands maternity care responses to COVID-19: A comparative study

Research output: Contribution to journal › Article › peer-review

Development of a core outcome set for effectiveness studies of breech birth at term (Breech-COS)—an international multi-stakeholder Delphi study: study protocol

Research output: Contribution to journal › Article › peer-review

Protocol for the IMPART study: IMplementation of the preterm birth surveillance PAthway - a RealisT evaluation

Research output: Contribution to journal › Article › peer-review

Investigation of the critical factors required to improve the disclosure and discussion of harm with affected women and families: a study protocol for a qualitative, realist study in NHS maternity services (the DISCERN study)
External validation of prognostic models to predict stillbirth using International Prediction of Pregnancy Complications (IPPIC) Network database: individual participant data meta-analysis

The effectiveness of decision aids for pregnancy related decision-making in women with pre-pregnancy morbidity; systematic review and meta-analysis

'Never waste a crisis': a commentary on the COVID-19 pandemic as a driver for innovation in maternity care

Removal at birth and its challenges for midwifery care
De Backer, K., Chivers, K., Mason, C., Sandall, J. & Easter, A., 2022, In: European Journal of Midwifery. 6, April, 146647.

Preliminary findings on the experiences of care for parents who suffered perinatal bereavement during the COVID-19 pandemic

Disclosure of non-recent (historic) childhood sexual abuse: What should researchers do?

A mixed-methods feasibility study of an intervention to improve men’s mental health and wellbeing during their transition to fatherhood

Harnessing technology to enable all women mobility in labour and birth: feasibility of implementing beltless non-invasive fetal ECG applying the NASSS framework

Project20: Interpreter services for pregnant women with social risk factors in England: What works, for whom, in what circumstances, and how?

Using electronic patient records to assess the effect of a complex antenatal intervention in a cluster randomised controlled trial—data management experience from the DESIGNS Trial team
on behalf of the DESIGN Trial team, Dec 2021, In: Trials. 22, 1, 195.
Clinicians’ experiences of using and implementing a medical mobile phone app (QUIPP V2) designed to predict the risk of preterm birth and aid clinical decision making

Research output: Contribution to journal › Article › peer-review

Can birth outcome inequality be reduced using targeted caseload midwifery in a deprived diverse inner city population? A retrospective cohort study, London, UK

Research output: Contribution to journal › Article › peer-review

Women’s experiences of maternity service reconfiguration during the COVID-19 pandemic: A qualitative investigation

Research output: Contribution to journal › Article › peer-review

"It's like a bus, going downhill, without a driver": A qualitative study of how postpartum haemorrhage is experienced by women, their birth partners, and healthcare professionals

Research output: Contribution to journal › Article › peer-review

Pills and prayers: A comparative qualitative study of community conceptualisations of pre-eclampsia and pluralistic care in Ethiopia, Haiti and Zimbabwe

Research output: Contribution to journal › Article › peer-review

HeAlth System StrEngThening in four sub-Saharan African countries (ASSET) to achieve high-quality, evidence-informed surgical, maternal and newborn, and primary care: protocol for pre-implementation phase studies

Research output: Contribution to journal › Article › peer-review

A realist review to explore how midwifery continuity of care may influence preterm birth in pregnant women

Research output: Contribution to journal › Article › peer-review

Obstetric near misses among women with serious mental illness: data linkage cohort study

Research output: Contribution to journal › Article › peer-review

Ten women's decision-making experiences in threatened preterm labour: Qualitative findings from the EQUIPTT trial

Research output: Contribution to journal › Article › peer-review

Implementation science protocol for a participatory, theory-informed implementation research programme in the context of health system strengthening in sub-Saharan Africa (ASSET-ImplementER)

Research output: Contribution to journal › Article › peer-review
Maternal help seeking about early warning signs and symptoms of pre-eclampsia: A qualitative study of experiences of women and their families
Research output: Contribution to journal › Article › peer-review

Planned early delivery for late preterm pre-eclampsia in a low- and middle-income setting: A feasibility study
Research output: Contribution to journal › Article › peer-review

Project20: Does continuity of care and community-based antenatal care improve maternal and neonatal birth outcomes for women with social risk factors? A prospective, observational study
Research output: Contribution to journal › Review article › peer-review

Effect of the CRADLE vital signs alert device intervention on referrals for obstetric haemorrhage in low-middle income countries: a secondary analysis of a stepped-wedge cluster-randomised control trial
Research output: Contribution to journal › Article › peer-review

Experiences of maternity care among women at increased risk of preterm birth receiving midwifery continuity of care compared to women receiving standard maternity care: Results from the POPPIE pilot trial
Research output: Contribution to journal › Article › peer-review

Healthcare stakeholders' perceptions and experiences of factors affecting the implementation of critical care telemedicine (CCT): qualitative evidence synthesis
Research output: Contribution to journal › Review article › peer-review

Addressing inequities in maternal health among women living in communities of social disadvantage and ethnic diversity
Research output: Contribution to journal › Article › peer-review

Implementation Science Protocol for a participatory, theory-informed implementation research programme in the context of health system strengthening in sub-Saharan Africa (ASSET-ImplementER)
Research output: Contribution to journal › Article

Can risk prediction models help us individualise stillbirth prevention? A systematic review and critical appraisal of published risk models
Research output: Contribution to journal › Review article › peer-review

Prediction of stillbirth: an umbrella review of evaluation of prognostic variables
Research output: Contribution to journal › Review article › peer-review

**Community engagement and partnerships in maternity services research**
Research output: Contribution to journal › Article › peer-review

**Interventions to increase patient and family involvement in escalation of care for acute life-threatening illness in community health and hospital settings**
Research output: Contribution to journal › Review article › peer-review

**Exploring the potential for introducing home monitoring of blood pressure during pregnancy into maternity care: current views and experiences of staff—a qualitative study**
Research output: Contribution to journal › Article › peer-review

**The role of midwifery and other international insights for maternity care in the United States: An analysis of four countries**
Research output: Contribution to journal › Article › peer-review

**Online resources and apps to aid self-diagnosis and help seeking in the perinatal period: A descriptive survey of women’s experiences**
Research output: Contribution to journal › Article › peer-review

**Costing the impact of interventions during pregnancy in the UK: A systematic review of economic evaluations**
Research output: Contribution to journal › Review article › peer-review

**Implementation of national antenatal hypertension guidelines: A multicentre multiple methods study**
Research output: Contribution to journal › Article › peer-review

**Health system redesign for equity in maternal and newborn health must be codesigned, country led, adapted to context and fit for purpose**
Research output: Contribution to journal › Article › peer-review

**Midwifery continuity of care versus standard maternity care for women at increased risk of preterm birth: A hybrid implementation—effectiveness, randomised controlled pilot trial in the UK**
Research output: Contribution to journal › Article › peer-review

**The Cultural Politics of ‘Implementation Science’**
Research output: Contribution to journal › Article › peer-review
Reflections on an educational intervention to encourage midwives to work in a continuity of care model – exploration and potential solutions
Research output: Contribution to journal › Article › peer-review

Incidence and characteristics of pregnancy-related death across ten low and middle-income geographical regions: secondary analysis of a cluster randomised controlled trial
CRADLE Trial Collaborative Group, 1 Aug 2020, In: BJOG. 127, 9, p. 1082-1089 8 p.
Research output: Contribution to journal › Article › peer-review

"She was accused of colluding with the mother"; the training and support needs of parent-and-child foster carers: A qualitative study
Research output: Contribution to journal › Article › peer-review

Project 20: Midwives' insight into continuity of care models for women with social risk factors: What works, for whom, in what circumstances, and how
Research output: Contribution to journal › Article › peer-review

PRECISE pregnancy cohort: Challenges and strategies in setting up a biorepository in sub-Saharan Africa
Research output: Contribution to journal › Article › peer-review

The PRECISE (PREgnancy Care Integrating translational Science, Everywhere) Network's first protocol: Deep phenotyping in three sub-Saharan African countries
Research output: Contribution to journal › Article › peer-review

The PRECISE (PREgnancy Care Integrating translational Science, Everywhere) database: Open-access data collection in maternal and newborn health
Research output: Contribution to journal › Article › peer-review

The contribution of qualitative research within the PRECISE study in sub-Saharan Africa
Research output: Contribution to journal › Article › peer-review

Planned Early Delivery or Expectant Management for Late Preterm Pre-eclampsia (PHOENIX): A Randomized Controlled Trial
Research output: Contribution to journal › Comment/debate › peer-review

Blood pressure monitoring in high-risk pregnancy to improve the detection and monitoring of hypertension (the BUMP 1 and 2 trials): protocol for two linked randomised controlled trials
POPPIE: Protocol for a randomised controlled pilot trial of continuity of midwifery care for women at increased risk of preterm birth
Research output: Contribution to journal › Article › peer-review

Service user, carer and provider perspectives on integrated care for older people with frailty, and factors perceived to facilitate and hinder implementation: A systematic review and narrative synthesis
Research output: Contribution to journal › Article › peer-review

Exploring the effect of implementation and context on a stepped-wedge randomised controlled trial of a vital sign triage device in routine maternity care in low-resource settings
Research output: Contribution to journal › Article › peer-review

Incidence of eclampsia and related complications across 10 low- and middle-resource geographical regions: Secondary analysis of a cluster randomised controlled trial
Research output: Contribution to journal › Article › peer-review

The DESiGN trial (DEtection of Small for Gestational age Neonate), evaluating the effect of the Growth Assessment Protocol (GAP): study protocol for a randomised controlled trial: Study protocol for a randomised controlled trial 11 Medical and Health Sciences 1117 Public Health and Health Services 11 Medical and Health Sciences 1114 Paediatrics and Reproductive Medicine
Research output: Contribution to journal › Article › peer-review

Recognition and response to life-threatening situations among women with perinatal mental illness: A qualitative study
Research output: Contribution to journal › Article › peer-review

Effect of a novel vital sign device on maternal mortality and morbidity in low-resource settings: a pragmatic, stepped-wedge, cluster-randomised controlled trial
Research output: Contribution to journal › Article › peer-review

Implementation of midwifery continuity of care models for Indigenous women in Australia: Perspectives and reflections for the United Kingdom
Research output: Contribution to journal › Comment/debate › peer-review
Threatened preterm labour: women’s experiences of risk and care management: A qualitative study
Research output: Contribution to journal › Article › peer-review

The Preterm Clinical Network (PCN) Database: A web-based systematic method of collecting data on the care of women at risk of preterm birth
Research output: Contribution to journal › Article › peer-review

The DESIGN Trial Protocol DEtection of Small for GestatioNal age fetus (SGA) – a cluster randomised controlled trial to evaluate the effect of the Growth assessment protocol (GAP) programme
Pasupathy, D., Sandall, J., Khalil, A., Copas, A. & Seed, P. T., 16 Aug 2018
Research output: Other contribution

Case management for integrated care of frail older people in community settings (Protocol)
Research output: Contribution to journal › Article › peer-review

Relationships between maternal obesity and maternal and neonatal iron status
SCOPE and UBPEAT Consortiums, 30 Jul 2018, In: Nutrients. 10, 8, 1000.
Research output: Contribution to journal › Article › peer-review

Supporting women with eating disorders during pregnancy and the postnatal period
Research output: Contribution to journal › Article

Evaluation of a novel vital sign device to reduce maternal mortality and morbidity in low-resource settings: a mixed method feasibility study for the CRADLE-3 trial
Research output: Contribution to journal › Article › peer-review

Evaluation of a novel device for the management of high blood pressure and shock in pregnancy in low-resource settings: study protocol for a stepped-wedge cluster-randomised controlled trial (CRADLE-3 trial)
Research output: Contribution to journal › Article › peer-review

‘Just because she’s young, it doesn’t mean she has to die’: Exploring the contributing factors to high maternal mortality in adolescents in Eastern Freetown; A qualitative study
Research output: Contribution to journal › Article › peer-review

Experiences of early labour management from perspectives of women, labour companions and health professionals: A systematic review of qualitative evidence
Research output: Contribution to journal › Article › peer-review
Employing the arts for knowledge production and translation: Visualizing new possibilities for women speaking up about safety concerns in maternity
Research output: Contribution to journal › Article › peer-review

The CRADLE vital signs alert: qualitative evaluation of a novel device designed for use in pregnancy by healthcare workers in low-resource settings
Research output: Contribution to journal › Article › peer-review

Modified early obstetric warning scores: A promising tool but more evidence and standardization is required
Research output: Contribution to journal › Article › peer-review

Healthcare stakeholders’ perceptions and experiences of factors affecting the implementation of critical care telemedicine (CCT): qualitative evidence synthesis
Research output: Contribution to journal › Review article › peer-review

Prediction of uncomplicated pregnancies in obese women: a prospective multicentre study
Research output: Contribution to journal › Article › peer-review

Interventions to increase patient and family involvement in escalation of care for acute life-threatening illness in community health and hospital settings: Systematic review protocol
Research output: Contribution to journal › Article › peer-review

Mental health near miss indicators in maternity care: a missed opportunity? A Commentary
Research output: Contribution to journal › Article › peer-review

Working for patient safety: A qualitative study of women's help-seeking during acute perinatal events
Research output: Contribution to journal › Article › peer-review

Research output: Contribution to journal › Article › peer-review

Research output: Contribution to journal › Article › peer-review

A narrative synthesis of factors that affect women speaking up about early warning signs and symptoms of pre-eclampsia and responses of healthcare staff
Research output: Contribution to journal › Article › peer-review
Chagas disease among pregnant Latin American women in the United Kingdom: time for action
Research output: Contribution to journal › Article › peer-review

Place of Birth and Concepts of Wellbeing
Research output: Contribution to journal › Article › peer-review

Erratum to 'Reconceptualising Risk in Childbirth' (Midwifery (2016) 38 (1–5)(S0266613816300717)(10.1016/j.midw.2016.05.012))
Research output: Contribution to journal › Article › peer-review

Telemedicine with clinical decision support for critical care: A systematic review
Research output: Contribution to journal › Article › peer-review

"If she wants to eat…and eat and eat…fine! It's gonna feed the baby": pregnant women and partners' perceptions and experiences of pregnancy with a BMI >40 kg/m2
Research output: Contribution to journal › Article › peer-review

Improving Research into Models of Maternity Care to Inform Decision Making
Research output: Contribution to journal › Article › peer-review

Reconceptualising risk in childbirth
Research output: Contribution to journal › Editorial › peer-review

Predictors of birth-related post-traumatic stress symptoms: secondary analysis of a cohort study
Research output: Contribution to journal › Article › peer-review

Midwife-led continuity models versus other models of care for childbearing women
Research output: Contribution to journal › Literature review › peer-review

Women and their birth partners' experiences following a primary postpartum haemorrhage: a qualitative study
Research output: Contribution to journal › Article › peer-review

Relationships: the pathway to safe, high-quality maternity care: Sheila Kitzinger symposium at Green Templeton College, Oxford: Summary report
Research output: Book/Report › Report › peer-review
The four Ts of PPH experience: women and their birth partners' experiences of primary postpartum haemorrhage

Call for special issue of midwifery on risk in childbirth

An investigation of the relationship between the caseload model of midwifery for socially disadvantaged women and childbirth outcomes using routine data – A retrospective, observational study

An investigation of the relationship between the caseload model of midwifery for socially disadvantaged women and childbirth outcomes using routine data - A retrospective, observational study

Improving critical care discharge summaries: a collaborative quality improvement project using PDSA

Severe maternal morbidity and breastfeeding outcomes in the early post-natal period: a prospective cohort study from one English maternity unit

The 30th International Confederation of Midwives Triennial Congress: Improving Women's Health Globally

The habitus of ‘rescue’ and its significance for implementation of rapid response systems in acute health care

The projected effect of scaling up midwifery

Caesarean section and neonatal outcomes in private hospitals in Brazil: comparative study of two different perinatal models of care

Implantação da presença de acompanhantes durante a internação para o parto: Dados da pesquisa nacional nascer no Brasil
Culture, context and the implementation challenge to achieve a better birth experience
Research output: Contribution to journal › Article › peer-review

Poor marital support associate with anxiety and worries during pregnancy in Greek pregnant women
Research output: Contribution to journal › Article › peer-review

Reporting errors, incidence and risk factors for postpartum haemorrhage and progression to severe PPH: a prospective observational study
Research output: Contribution to journal › Article › peer-review

Use of clinical targets in diabetes patient education: qualititative analysis of the expectations and impact of a structured self-management programme in Type 1 diabetes
Research output: Contribution to journal › Article › peer-review

Interventions to reduce and prevent obesity in pre-conceptual and pregnant women: a systematic review and meta-analysis
Research output: Contribution to journal › Article › peer-review

The relationship between severe maternal morbidity and psychological health symptoms at 6-8 weeks postpartum: a prospective cohort study in one English maternity unit
Research output: Contribution to journal › Article › peer-review

A complex intervention to improve pregnancy outcome in obese women; the UPBEAT randomised controlled trial: the UPBEAT randomised controlled trial
Research output: Contribution to journal › Article › peer-review

Value of a modified early obstetric warning system (MEOWS) in managing maternal complications in the peripartum period: an ethnographic study
Research output: Contribution to journal › Article › peer-review

A national cross sectional survey of heads of midwifery services of uptake, benefits and barriers to use of obstetric early warning systems (EWS) by midwives
Research output: Contribution to journal › Article › peer-review

Reporting errors, incidence and risk factors for postpartum haemorrhage and progression to severe PPH: A prospective observational study
Research output: Contribution to journal › Article › peer-review

Service configuration, unit characteristics and variation in intervention rates in a national sample of obstetric units in England: an exploratory analysis

Research output: Contribution to journal › Article › peer-review

Duration and urgency of transfer in births planned at home and in freestanding midwifery units in England: secondary analysis of the birthplace national prospective cohort study

Research output: Contribution to journal › Article › peer-review

Midwife-led continuity models versus other models of care for childbearing women

Research output: Contribution to journal › Article › peer-review

Occupational burnout and work factors in community and hospital midwives: a survey analysis

Research output: Contribution to journal › Article › peer-review

Developing a complex intervention for diet and activity behaviour change in obese pregnant women (the UPBEAT trial); assessment of behavioural change and process evaluation in a pilot randomised controlled trial

Research output: Contribution to journal › Article › peer-review

Interventions to reduce and prevent obesity in pre-conceptual and pregnant women: a systematic review and meta-analysis

Research output: Contribution to journal › Meeting abstract › peer-review

What makes a successful home birth service: an examination of the influential elements by review of one service

Research output: Contribution to journal › Article › peer-review

Women's safety alerts in maternity care: Is speaking up enough?

Research output: Contribution to journal › Article › peer-review

Birthplace in England Research — Implications of New Evidence

Research output: Contribution to journal › Article › peer-review

Elective caesarean delivery: A mixed method qualitative investigation

Research output: Contribution to journal › Article › peer-review

Expect the unexpected: patients' and families' expectations and experiences of new clinical procedures.

Research output: Contribution to journal › Article › peer-review

The role of patients and their relatives in 'speaking up' about their own safety - a qualitative study of acute illness

Research output: Contribution to journal › Article › peer-review
To what extent are women free to choose where to give birth? How discourses of risk, blame and responsibility influence birth place decisions.
Research output: Contribution to journal › Article › peer-review

What happens when patients know more than their doctors? Experiences of health interactions after diabetes patient education: a qualitative patient-led study
Research output: Contribution to journal › Article › peer-review

Women’s perceptions and experiences of severe maternal morbidity - A synthesis of qualitative studies using a meta-ethnographic approach
Research output: Contribution to journal › Article › peer-review

A survey of worries of pregnant women: Reliability and validity of the Greek version of the Cambridge Worry Scale
Research output: Contribution to journal › Article › peer-review

Every Woman Needs a Midwife, and Some Women Need a Doctor Too
Research output: Contribution to journal › Article › peer-review

Widening access to research publications
Research output: Contribution to journal › Editorial › peer-review

Reflections on the implementation of governance structures for early-stage clinical innovation
Research output: Contribution to journal › Article › peer-review

A systematic review of the relationship between severe maternal morbidity and post-traumatic stress disorder
Research output: Contribution to journal › Article › peer-review

The social dimensions of safety incident reporting in maternity care: The influence of working relationships and group processes
Research output: Contribution to journal › Article › peer-review

Organisational strategies and midwives’ readiness to provide care for out of hospital births: An analysis from the Birthplace organisational case studies
Research output: Contribution to journal › Article › peer-review

Place of birth
Research output: Contribution to journal › Editorial › peer-review

Choosing out of hospital birth
Research output: Contribution to journal › Article › peer-review
Freestanding midwifery units versus obstetric units: does the effect of place of birth differ with level of social disadvantage?
Research output: Contribution to journal › Article › peer-review

A methodological study to compare survey-based and observation-based evaluations of organisational and safety cultures and then compare both approaches with markers of the quality of care
Research output: Contribution to journal › Article › peer-review

Organisation of maternity care and choices of mode of birth: A worldwide view
Research output: Contribution to journal › Editorial › peer-review

The impact of birthplace on women's birth experiences and perceptions of care
