

Research outputs

Listing of Research outputs

Fast Fingerprint Recognition Using Circular String Pattern Matching Techniques

Ajala, O. I., Aljamea, M. M., Alzamel, M. A. M. & Iliopoulos, C., 20 Mar 2016, *Patterns 2016*. IARIA

Research output: Chapter in Book/Report/Conference proceeding › Conference paper › peer-review

A Fast Fingerprint Identification Approach via Circular String Matching Filters

Aljamea, M. M., Alzamel, M. A. M., Iliopoulos, C. & Samir Uzzaman, M., 2016, (Accepted/In press) *FTC 2016 - Future Technologies Conference 2016*. IEEE

Research output: Chapter in Book/Report/Conference proceeding › Conference paper › peer-review

Fast Fingerprint Rotation Recognition Technique Using Circular Strings in Lexicographical Order

Ajala, O. I., Aljamea, M. M., Alzamel, M. A. M. & Iliopoulos, C., 2016, (Accepted/In press) *SAI Intelligent Systems*. IEEE

Research output: Chapter in Book/Report/Conference proceeding › Conference paper › peer-review

The above report is produced using the following setup

Ordered by: null
