Listing of Research outputs

Efficient choice of colored noise in the stochastic dynamics of open quantum systems

Matos, D., Lane, M. A., Ford, I. J. & Kantorovich, L., 16 Dec 2020, In: Physical Review E. 102, 6, 062134.

Research output: Contribution to journal › Article › peer-review

Efficient choice of coloured noises in stochastic dynamics of open quantum systems

Matos, D., Lane, M., Ford, I. J. & Kantorovich, L., 10 Nov 2020, (Accepted/In press) In: PHYSICAL REVIEW E.

Research output: Contribution to journal › Article › peer-review

Exactly thermalized quantum dynamics of the spin-boson model coupled to a dissipative environment

Lane, M. A., Matos, D., Ford, I. J. & Kantorovich, L., 1 Jun 2020, In: Physical Review B. 101, 22, 224306.

Research output: Contribution to journal › Article › peer-review

Exactly Thermalised Quantum Dynamics of the Spin-Boson Model coupled to a Dissipative Environment

Lane, M., Matos, D., Ford, I. J. & Kantorovich, L., 8 Apr 2020, (Accepted/In press) In: Physical Review B.

Research output: Contribution to journal › Article › peer-review
