Research outputs
Listing of Research outputs

Improving access to preparatory information for children undergoing general anaesthesia for tooth extraction and their families: study protocol for a Phase III randomized controlled trial
Research output: Contribution to journal › Article

Framework for e-learning assessment in dental education: a global model for the future
Research output: Contribution to journal › Article

Discovering online learning barriers: survey of health educational stakeholders in dentistry
Research output: Contribution to journal › Article

University students’ attainment and perceptions of computer delivered assessment; a comparison between computer-based and traditional tests in a ‘high-stakes’ examination
Research output: Contribution to journal › Article

Innovations for Your Education
Reynolds, P.A., 5 Jun 2011
Research output: Non-textual form › Performance

Effectiveness and acceptability of face-to-face, blended and e-learning: a randomised trial of orthodontic undergraduates
Research output: Contribution to journal › Article

Exhibiting understanding The body in apprenticeship
Research output: Contribution to journal › Article

Discovering Solutions to Online Learning Barriers: Survey of EU Health-Educational Stakeholders in Dentistry
Research output: Chapter in Book/Report/Conference proceeding › Conference paper

Metaphoric Reasoning and the Classification of eTeaching/eLearning Platforms as Supermarkets, Schools and Airports
Research output: Chapter in Book/Report/Conference proceeding › Conference paper

Online learning in dentistry: an overview of the future direction for dental education
Research output: Contribution to journal › Literature review

An evaluation of an online course to Dental Surgery Assistants in Malaysia
Research output: Contribution to journal › Article
Design and Development of Flexible Learning architecture using Service Oriented architecture and object oriented databases
Research output: Chapter in Book/Report/Conference proceeding › Conference paper

From LMS to VLE or from supermarkets to airports: Classifying elearning platforms using metaphors
Research output: Chapter in Book/Report/Conference proceeding › Conference paper

Investigating formative and summative assessment methods for technology-enhanced learning (TEL) of dental clinical skills
Research output: Chapter in Book/Report/Conference proceeding › Conference paper

The complexity of developing and evaluating the impact of haptics environments on students' learning
Research output: Chapter in Book/Report/Conference proceeding › Conference paper

'Design and Development of Virtual Leaning Environment Using Open Source Virtual World Technology' In Reynolds, Nicolas; Turcsányi-Szabó, Mártá (Eds.) Key Competencies in the Knowledge Society.
Research output: Book/Report › Book

Do haptics give dental students a cutting edge in the learning of clinical skills?
Research output: Chapter in Book/Report/Conference proceeding › Conference paper

McMinn's color atlas of head and neck anatomy Fourth Edition
Research output: Book/Report › Book

A vision of dental education in the third millennium
Research output: Contribution to journal › Article

Nine years of DentEd — a global perspective on dental education
Research output: Contribution to journal › Article

Assuring quality
Research output: Contribution to journal › Article

Continuing professional development and ICT: target practice
Research output: Contribution to journal › Article

Making a mark - taking assessment to technology
Research output: Contribution to journal › Article
On-line video media for continuing professional development in dentistry
Research output: Contribution to journal › Article

A study of videoconferencing for postgraduate continuing education in dentistry in the UK—the teachers' view
Research output: Contribution to journal › Article

McMinn's Interactive Clinical Anatomy: Head and Neck - CD-ROM, 2nd edition
Reynolds, P. A. & Abrahams, P. H., 2001
Research output: Non-textual form › Software

Other Influences and Student Affairs.
Research output: Chapter in Book/Report/Conference proceeding › Chapter

Participating dentists' assessment of the pilot regional online videoconferencing in dentistry (PROVIDENT) project
Research output: Contribution to journal › Article
