Research outputs
Listing of Research outputs

Associations of presenting symptoms and subsequent adverse clinical outcomes in people with unipolar depression: a prospective natural language processing (NLP), transdiagnostic, network analysis of electronic health record (EHR) data
Research output: Contribution to journal › Article › peer-review

NeuroBlu, an Electronic Health Record (EHR) Trusted Research Environment (TRE) to support mental healthcare analytics with real-world data
Research output: Contribution to journal › Article › peer-review

Ethnic inequalities in clozapine use among people with treatment-resistant schizophrenia: a retrospective cohort study using data from electronic clinical records
Research output: Contribution to journal › Article › peer-review

Analysis of mental and physical disorders associated with COVID-19 in online health forums: a natural language processing study
Research output: Contribution to journal › Article › peer-review

The impact of cigarette smoking on life expectancy in schizophrenia, schizoaffective disorder and bipolar affective disorder: An electronic case register cohort study
Research output: Contribution to journal › Article › peer-review

Research output: Contribution to journal › Article › peer-review

Gender disparities in clozapine prescription in a cohort of treatment-resistant schizophrenia in the South London and Maudsley case register
Research output: Contribution to journal › Article › peer-review

Gender differences in clinical presentation and illicit substance use during first episode psychosis: a natural language processing, electronic case register study
Research output: Contribution to journal › Article › peer-review

Impact of the COVID-19 pandemic on remote mental healthcare and prescribing in psychiatry: an electronic health record study
Research output: Contribution to journal › Article › peer-review
A Natural Language Processing Approach for Identifying Temporal Disease Onset Information from Mental Healthcare Text
Research output: Contribution to journal › Article › peer-review

Investigating mental and physical disorders associated with COVID-19 in online health forums
Research output: Contribution to journal › Article

Impact of the COVID-19 pandemic on remote mental healthcare and prescribing in psychiatry
Research output: Contribution to journal › Article

Individualized prediction of 2-year risk of relapse as indexed by psychiatric hospitalization following psychosis onset: Model development in two first episode samples
Research output: Contribution to journal › Article › peer-review

Real-World Clinical Outcomes Two Years After Transition to Psychosis in Individuals at Clinical High Risk: Electronic Health Record Cohort Study
Research output: Contribution to journal › Article › peer-review

Using natural language processing on electronic health records to enhance detection and prediction of psychosis risk
Research output: Contribution to journal › Article › peer-review

8 Catatonia: demographic, clinical and laboratory associations in a large dataset
Research output: Contribution to journal › Meeting abstract › peer-review

Do neighbourhood characteristics explain physical victimisation in men and women with mental health problems?
Research output: Contribution to journal › Article › peer-review

Synthetic cannabinoid use in psychiatric patients and relationship to hospitalisation: A retrospective electronic case register study
Research output: Contribution to journal › Article › peer-review

Research output: Contribution to journal › Article › peer-review
T82. THE IMPACT OF SMOKING ON LIFE EXPECTANCY IN PSYCHOTIC DISORDERS, AN ELECTRONIC CASE REGISTER COHORT STUDY
Research output: Contribution to journal › Meeting abstract › peer-review

T97. REAL WORLD IMPLEMENTATION OF A TRANSDIAGNOSTIC RISK CALCULATOR FOR THE AUTOMATIC DETECTION OF INDIVIDUALS AT RISK OF PSYCHOSIS IN CLINICAL ROUTINE
Research output: Contribution to journal › Meeting abstract › peer-review

Real-World Implementation of Precision Psychiatry: Transdiagnostic Risk Calculator for the Automatic Detection Of Individuals At-Risk of Psychosis
Research output: Contribution to journal › Article › peer-review

T109. TRAVERSING THE TRANSDIAGNOSTIC GAP BETWEEN DEPRESSION, MANIA AND PSYCHOSIS WITH NATURAL LANGUAGE PROCESSING
Research output: Contribution to journal › Meeting abstract

T127. GENDER DIFFERENCES IN CLINICAL PRESENTATION AND ILLICIT SUBSTANCE USE DURING FIRST EPISODE PSYCHOSIS: AN ELECTRONIC CASE REGISTER NATURAL LANGUAGE PROCESSING ANALYSIS
Research output: Contribution to journal › Meeting abstract

Prevalence and Incidence of Clinical Outcomes in Patients Presenting to Secondary Mental Health Care with Mood Instability and Sleep Disturbance
Research output: Contribution to journal › Article › peer-review

Temporal Information Extraction from Mental Health Records to Identify Duration of Untreated Psychosis
Research output: Contribution to journal › Article › peer-review

Unipolar mania: Identification and characterisation of cases in France and the United Kingdom
Research output: Contribution to journal › Article › peer-review

Synthetic cannabinoid use in psychiatric patients and relationship to hospitalisation: A retrospective electronic case register study
Research output: Contribution to journal › Article › peer-review

Predicting high-cost care in a mental health setting
Research output: Contribution to journal › Article › peer-review
Investigating Comorbidity of Mental and Physical Disorders in Online Health Forums
Research output: Chapter in Book/Report/Conference proceeding › Conference contribution › peer-review

The association between neighbourhood characteristics and physical victimisation in men and women with mental disorders
Research output: Contribution to journal › Article › peer-review

Community Treatment Orders and associations with readmission rates and duration of psychiatric hospital admission: A controlled electronic case register study
Research output: Contribution to journal › Article › peer-review

Annotating Temporal Relations to Determine the Onset of Psychosis Symptoms
Research output: Chapter in Book/Report/Conference proceeding › Conference paper › peer-review

Recorded poor insight as a predictor of service use outcomes: Cohort study of patients with first-episode psychosis in a large mental healthcare database
Research output: Contribution to journal › Article › peer-review

Generating Positive Psychosis Symptom Keywords from Electronic Health Records
Research output: Chapter in Book/Report/Conference proceeding › Conference paper › peer-review

Epidemiology of catatonia in a large dataset
Research output: Contribution to journal › Meeting Abstract › peer-review

F55. CLINICAL OUTCOMES ASSOCIATED WITH ILLICIT SUBSTANCE USE IN FIRST EPISODE PSYCHOSIS (FEP): A TEXT MINING STUDY OF ELECTRONIC HEALTH RECORDS
Research output: Contribution to journal › Meeting abstract › peer-review

O3.3. COMORBID SUBSTANCE USE DISORDERS ASSOCIATED WITH LIFE EXPECTANCY REDUCTION IN PEOPLE WITH PSYCHOTIC DISORDERS: AN ELECTRONIC CASE REGISTER STUDY
Research output: Contribution to journal › Meeting abstract › peer-review

Unmet needs in patients with brief psychotic disorders: Too ill for clinical high risk services and not ill enough for first episode services
A retrospective cohort study of 21,012 adults to investigate which antidepressants pose the greatest risk of developing mania
Research output: Contribution to journal › Poster abstract › peer-review

Investigating Mood Instability in Psychotic Disorders Using Natural Language Processing (NLP)
Research output: Contribution to journal › Meeting abstract › peer-review

Clinical outcomes and mortality associated with weekend admission to psychiatric hospital
Research output: Contribution to journal › Article › peer-review

Predicting clinical outcomes in psychotic disorders using electronic case registers and natural language processing
Research output: Contribution to journal › Meeting abstract › peer-review

Impact of cannabis use on clinical outcomes and treatment failure in first episode psychosis
Research output: Contribution to journal › Meeting abstract › peer-review

Mood Instability and Clinical Outcomes in Mental Health Disorders: A Natural Language Processing (NLP) Study
Research output: Contribution to journal › Meeting abstract › peer-review

Which Antidepressants are Associated with Increased Risk of Developing Mania? A Retrospective Electronic Case Register Cohort Study
Research output: Contribution to journal › Meeting abstract › peer-review

Delays to diagnosis and treatment in patients presenting to mental health services with bipolar disorder
Research output: Contribution to journal › Meeting abstract › peer-review

Association of cannabis use with hospital admission and antipsychotic treatment failure in first episode psychosis: an observational study
Research output: Contribution to journal › Article › peer-review

Clinical outcomes and mortality associated with weekend admission to psychiatric hospital: implications for provision of 7 day mental health care in the National Health Service
Research output: Contribution to journal › Meeting abstract › peer-review

Services for people at high risk improve outcomes in patients with first episode psychosis

Research output: Contribution to journal › Article › peer-review
Association of cannabis use with hospital admission and treatment resistance in people with first episode psychosis in South London

Clinical outcomes of people with first episode psychosis presenting to the OASIS prodromal clinic in South London

Delays to diagnosis and treatment of bipolar disorder: the UK experience

Factors affecting hospital admission following presentation to mental health services with psychosis

Setting up a new prodromal service in South London: feasibility study

Identifying negative symptoms in schizophrenia and association with clinical outcomes using natural language processing

Association of antidepressant therapy with onset of mania

Investigation of negative symptoms in schizophrenia with a machine learning text-mining approach

Association of cannabis use with hospital admission and treatment resistance in people with first episode psychosis in South London

TextHunter—A User Friendly Tool for Extracting Generic Concepts from Free Text in Clinical Research

Venous thromboembolism prophylaxis - beware of potential risks
