Research outputs
Listing of Research outputs

A Fuzzy Approach to Long-Term Care Benefit Eligibility: an Italian Case-Study
Research output: Chapter in Book/Report/Conference proceeding › Chapter

An Introduction to Screw Theory
Research output: Chapter in Book/Report/Conference proceeding › Chapter

Compliance Parameterization and Optimization of Compliant Parallel Mechanisms
Research output: Chapter in Book/Report/Conference proceeding › Chapter

Conceptual Design of Compliant Parallel Mechanisms
Research output: Chapter in Book/Report/Conference proceeding › Chapter

Construction of Compliant Mechanisms
Research output: Chapter in Book/Report/Conference proceeding › Chapter

Large Deformation Analysis of Compliant Parallel Mechanisms
Research output: Chapter in Book/Report/Conference proceeding › Chapter

Screw Representation of Flexible Elements
Research output: Chapter in Book/Report/Conference proceeding › Chapter

Stiffness Construction and Decomposition of Compliant Parallel Mechanisms
Research output: Chapter in Book/Report/Conference proceeding › Chapter

DOMESTIC AND GLOBAL DIMENSIONS OF POSTCOMMUNIST INSTITUTION-BUILDING
Sharafutdinova, G., Jan 2021, In : COMPARATIVE POLITICS.
Research output: Contribution to journal › Review article

Choosing Among Alternative New Product Development Projects: The Role of Heuristics
Research output: Contribution to journal › Article

Christian Art
Research output: Chapter in Book/Report/Conference proceeding › Entry in encyclopedia/dictionary
Courting Sadat: The Heath Government and Britain’s Arms Sales to Egypt, 1970-1973
Hughes, G., 2021, In : INTERNATIONAL HISTORY REVIEW.
Research output: Contribution to journal › Article

The Visual Commentary on Scripture: Principles and Possibilities
Research output: Chapter in Book/Report/Conference proceeding › Chapter

Trans Identity Narratives in Collaborative Museum Exhibitions: The Challenge of Representing Heterogeneity and Intragroup Divisions
Research output: Chapter in Book/Report/Conference proceeding › Chapter

What Is That To You? A Response to Peter Ochs’s Religion Without Violence
Research output: Contribution to journal › Article

Making use of evidence in commissioning practice: insights into the understanding of a telecare study’s findings
Research output: Contribution to journal › Article

Airborne emissions of microplastic fibres from domestic laundry dryers
Research output: Contribution to journal › Article

A genome-wide cross-phenotype meta-analysis of the association of blood pressure with migraine
The International Headache Genetics Consortium & the 23andMe Research Team, 1 Dec 2020, In : Nature Communications. 11, 1, 3368.
Research output: Contribution to journal › Article

A multiethnic genome-wide analysis of 44,039 individuals identifies 41 new loci associated with central corneal thickness
Research output: Contribution to journal › Article

A phenome-wide association and Mendelian Randomisation study of polygenic risk for depression in UK Biobank
Research output: Contribution to journal › Article

A smart switching system to enable automatic tuning and detuning of metamaterial resonators in MRI scans
Research output: Contribution to journal › Article

AEDGE: Atomic Experiment for Dark Matter and Gravity Exploration in Space

Research output: Contribution to journal » Review article

Accurate deep neural network inference using computational phase-change memory

Research output: Contribution to journal » Article

Acute heart failure

Research output: Contribution to journal » Review article

Acute oxytocin effects in inferring others’ beliefs and social emotions in people at clinical high risk for psychosis

Research output: Contribution to journal » Article

Adipose tissue morphology, imaging and metabolomics predicting cardiometabolic risk and family history of type 2 diabetes in non-obese men

Research output: Contribution to journal » Article

An in vitro assessment of the physical properties of manually- mixed and encapsulated glass-ionomer cements
Al-Taee, L., Deb, S. & Banerjee, A., 1 Dec 2020, In : BDJ Open. 6, 1, 12.

Research output: Contribution to journal » Article

Application of a risk-management framework for integration of stromal tumor-infiltrating lymphocytes in clinical trials
International Immuno-Oncology Biomarker Working Group, 1 Dec 2020, In : npj Breast Cancer. 6, 1, 15.

Research output: Contribution to journal » Review article

Author Correction: Report from a multidisciplinary meeting on anxiety as a non-motor manifestation of Parkinson’s disease (npj Parkinson’s Disease, (2019), 5, 1, (30), 10.1038/s41531-019-0102-8)

Research output: Contribution to journal » Comment/debate

Bayesian reassessment of the epigenetic architecture of complex traits

Research output: Contribution to journal » Article

Beta amyloid aggregates induce sensitised TLR4 signalling causing long-term potentiation deficit and rat neuronal cell death

Research output: Contribution to journal » Article
Butyrophilin-like proteins display combinatorial diversity in selecting and maintaining signature intraepithelial γδ T cell compartments
Research output: Contribution to journal › Article

Cep55 promotes cytokinesis of neural progenitors but is dispensable for most mammalian cell divisions
Research output: Contribution to journal › Article

Cervicovaginal natural antimicrobial expression in pregnancy and association with spontaneous preterm birth
Research output: Contribution to journal › Article

Characterization of the development of the mouse cochlear epithelium at the single cell level
Mann, Z., 1 Dec 2020, In : Nature Communications. 11, 1, 2389.
Research output: Contribution to journal › Article

Colonic microbiota is associated with inflammation and host epigenomic alterations in inflammatory bowel disease
Research output: Contribution to journal › Article

Conductive pattern, electrical and mechanical characterisation of gold nanorods inside porous alumina template
Research output: Contribution to journal › Article

Control of protein palmitoylation by regulating substrate recruitment to a zDHHC-protein acyltransferase
Research output: Contribution to journal › Article

Research output: Contribution to journal › Comment/debate

Dementia in long-term Parkinson’s disease patients: a multicentre retrospective study
Research output: Contribution to journal › Article

Digital phenotyping, behavioral sensing, or personal sensing: names and transparency in the digital age
Research output: Contribution to journal › Comment/debate

Do AKT1, COMT and FAAH influence reports of acute cannabis intoxication experiences in patients with first episode psychosis, controls and young adult cannabis users?
Dynamic network properties of the interictal brain determine whether seizures appear focal or generalised

Emerging functional connectivity differences in newborn infants vulnerable to autism spectrum disorders

Equine penile squamous cell carcinoma: expression of biomarker proteins and EcPV2

Exercise training results in depot-specific adaptations to adipose tissue mitochondrial function

Experimental Demonstration of Supervised Learning in Spiking Neural Networks with Phase-Change Memory Synapses

Genetic aetiology of self-harm ideation and behaviour

Genetic overlap between psychotic experiences in the community across age and with psychiatric disorders
Barkhuizen, W., Pain, O., Dudbridge, F. & Ronald, A., 1 Dec 2020, In : Translational psychiatry. 10, 1, 86.

Genetic susceptibility, inflammation and specific types of depressive symptoms: evidence from the English Longitudinal Study of Ageing

Genome-wide association meta-analysis of corneal curvature identifies novel loci and shared genetic influences across axial length and refractive error
Consortium for Refractive Error and Myopia (CREAM) & UK Biobank Eye and Vision Consortium, 1 Dec 2020, In : Communications Biology. 3, 1, 133.

Genome-wide association study of MRI markers of cerebral small vessel disease in 42,310 participants
PET imaging shows no changes in TSPO brain density after IFN-α immune challenge in healthy human volunteers

PepMusic: motivational qualities of songs for daily activities

Perceived non-smoking norms and motivation to stop smoking, quit attempts, and cessation: a cross-sectional study in England

Pericyte FAK negatively regulates Gas6/Axl signalling to suppress tumour angiogenesis and tumour growth

Pitfalls in assessing stromal tumor infiltrating lymphocytes (sTILs) in breast cancer
the International Immuno-Oncology Biomarker Working Group, 1 Dec 2020, In : npj Breast Cancer. 6, 1, 17.

Potential of animal models for advancing the understanding and treatment of pain in Parkinson’s disease

Practical issues and limitations of brain attenuation correction on a simultaneous PET-MR scanner

Preclinical development of a miR-132 inhibitor for heart failure treatment

Predicting change trajectories of neuroticism from baseline brain structure using whole brain analyses and latent growth curve models in adolescents

Quality of surgical care can impact survival in patients with bladder cancer after robot-assisted radical cystectomy: results from the International Robotic Cystectomy Consortium
RSPO3 impacts body fat distribution and regulates adipose cell biology in vitro
Research output: Contribution to journal › Article

Reduced Brd1 expression leads to reversible depression-like behaviors and gene-expression changes in female mice
Research output: Contribution to journal › Article

Reductions in task positive neural systems occur with the passage of time and are associated with changes in ongoing thought
Research output: Contribution to journal › Article

Regulatory sites for splicing in human basal ganglia are enriched for disease-relevant information
Research output: Contribution to journal › Article

Reproducibility of flutter-range vibrotactile detection and discrimination thresholds
Research output: Contribution to journal › Article

Revealing the complexity of ionic liquid–protein interactions through a multi-technique investigation
Research output: Contribution to journal › Article

School-related physical activity interventions and mental health among children: a systematic review and meta-analysis
Research output: Contribution to journal › Review article

Screening of Parkinsonian subtle fine-motor impairment from touchscreen typing via deep learning
Research output: Contribution to journal › Article

Seriality, miscellaneity, and compression in nineteenth-century print
Research output: Contribution to journal › Article

Significant out-of-sample classification from methylation profile scoring for amyotrophic lateral sclerosis
Research output: Contribution to journal › Article
Using Policy Labs as a process to bring evidence closer to public policymaking: a guide to one approach

Waterborne copper exposure up-regulated lipid deposition through the methylation of GRP78 and PGC1α of grass carp Ctenopharyngodon idella

Whole-blood expression of inflammasome- and glucocorticoid-related mRNAs correctly separates treatment-resistant depressed patients from drug-free and responsive patients in the BIODEP study
the Neuroimmunology of Mood Disorders and Alzheimer's Disease (NIMA) Consortium, 1 Dec 2020, In : Translational psychiatry. 10, 1, 232.

Why does the Aβ peptide of Alzheimer share structural similarity with antimicrobial peptides?

Capgras delusion in anti-NMDAR encephalitis: A case of autoimmune psychosis

Galactic center constraints on self-interacting sterile neutrinos from fermionic dark matter ("ino") models

Lack of association between Mannose Binding Lectin-2 gene polymorphisms and periodontitis: A meta-analysis

Moving cancer prevention and care forward in Saudi Arabia

On bubble collisions in strongly supercooled phase transitions

Prevalence and correlates of substance use among transgender adults: A systematic review

The Unknown Enemy: Counterinsurgency and the Illusion of Control
Mineralogy, geochemistry and toxicity of size-segregated respirable deposited dust in underground coal mines
Research output: Contribution to journal › Article

High-throughput multi-residue quantification of contaminants of emerging concern in wastewaters enabled using direct injection liquid chromatography-tandem mass spectrometry
Research output: Contribution to journal › Article

Cross-scanner and cross-protocol multi-shell diffusion MRI data harmonization: Algorithms and results
Research output: Contribution to journal › Article

Platinum(II) dithiocarbamate complexes [Pt(S2CNR2)Cl(PAr3)] as anticancer and DNA-damaging agents
Research output: Contribution to journal › Article

The Data Journalism Handbook: Towards A Critical Data Practice
Research output: Book/Report › Book

Winnicott’s Concept of ‘Holding’ as applied to Serious Physical Illness
Research output: Contribution to journal › Article

A comparison of quality flaws and technical debt in model transformation specifications
Research output: Contribution to journal › Article

A deformable tetrahedron rolling mechanism (DTRM) based on URU branch
Research output: Contribution to journal › Article

An epigenome-wide association study of Alzheimer’s disease blood highlights robust DNA hypermethylation in the HOXB6 gene
Research output: Contribution to journal › Article

Geometrical revelation of correlated characteristics of the ray and axis order of the Plücker coordinates in line geometry
Research output: Contribution to journal › Article

Micro-patterned surface construction on BCP ceramics and the regulation on inflammation-involved osteogenic differentiation
A Dynamic Model for Predicting Survival up to 1 Year After Ischemic Stroke
Research output: Contribution to journal › Article

Abstracting PROV provenance graphs: A validity-preserving approach
Research output: Contribution to journal › Article

Anatomical deadspace during resuscitation of infants with congenital diaphragmatic hernia
Research output: Contribution to journal › Article

Are we underestimating microplastic abundance in the marine environment? A comparison of microplastic capture with nets of different mesh-size
Research output: Contribution to journal › Article

Associations of exercise frequency and cardiorespiratory fitness with symptoms of depression and anxiety - a cross-sectional study of 36,595 adults
Research output: Contribution to journal › Article

Associations of moderate to vigorous physical activity and sedentary behavior with depressive and anxiety symptoms in self-isolating people during the COVID-19 pandemic: A cross-sectional survey in Brazil
Research output: Contribution to journal › Article

Characterization of two siderophores produced by Bacillus megaterium: A preliminary investigation into their potential as therapeutic agents
Research output: Contribution to journal › Article

Community-level interventions for pre-eclampsia (CLIP) in Pakistan: A cluster randomised controlled trial
Research output: Contribution to journal › Article

Customer capabilities for solution offerings in business markets
Research output: Contribution to journal › Article

Development and validation of the schedule for the assessment of insight in eating disorders (SAI-ED)
Research output: Contribution to journal › Article

Effect of antioxidant/reducing agents on the initial and long-term bonding performance of a self-etch adhesive to caries-affected dentin with and without smear layer-deproteinizing
Effect of smear layer deproteinization with enzyme solutions on bonding efficacy of one-step self-etch adhesives
Research output: Contribution to journal › Article

First Study of Sentinel-3 SLSTR Active Fire Detection and FRP Retrieval: Night-time Algorithm Enhancements and Global Intercomparison to MODIS and VIIRS AF Products
Research output: Contribution to journal › Article

Hallucinations and other psychotic experiences across diagnoses: A comparison of phenomenological features
Research output: Contribution to journal › Article

High-order based revelation of bifurcation of novel Schatz-inspired metamorphic mechanisms using screw theory
Research output: Contribution to journal › Article

Hyaluronan promotes the regeneration of vascular smooth muscle with potent contractile function in rapidly biodegradable vascular grafts
Research output: Contribution to journal › Article

Lack of periosteal apposition in the head and neck of femur after menopause in Chinese women with high risk for hip fractures — A cross-sectional study with QCT
Research output: Contribution to journal › Article

Selective toxicity of functionalised graphene oxide to patients-derived glioblastoma stem cells and minimal toxicity to non-cancerous brain tissue cells
Research output: Contribution to journal › Article

Subacute neocortical stimulation (SNCS) and its effects on epileptic activity in adults and children diagnosed with focal cortical dysplasia (FCD)
Research output: Contribution to journal › Article

The Red Mirror: Putin’s Leadership and Russia’s Insecure Identity
Research output: Book/Report › Book

The experience of trial participation, treatment approaches and perceptions of change among participants with dissociative seizures within the CODES randomized controlled trial: A qualitative study
Research output: Contribution to journal › Article
The role and contribution of nurses to patient flow management in acute hospitals: A systematic review of mixed methods studies
Research output: Contribution to journal › Review article

The type 2 diabetes gene product STARD10 is a phosphoinositide-binding protein that controls insulin secretory granule biogenesis
Research output: Contribution to journal › Article

Trends and predictors of exclusive e-cigarette use, exclusive smoking and dual use among youth in Canada
Research output: Contribution to journal › Article

Determination of anabolic steroids in dried blood using microsampling and gas chromatography-tandem mass spectrometry: Application to a testosterone gel administration study
Research output: Contribution to journal › Article

MODERN BRAZIL: A very short introduction
Research output: Book/Report › Book

Measuring employee-tourist encounter experience value: A big data analytics approach
Research output: Contribution to journal › Article

The role of microRNAs in neurons and neuroimmune communication in the dorsal root ganglia in chronic pain
Research output: Contribution to journal › Review article

Neoconservative education policy and the case of the English Baccalaureate
Research output: Contribution to journal › Article

A data-driven approach to optimising the encoding for multi-shell diffusion MRI with application to neonatal imaging
Research output: Contribution to journal › Article

Adolescent mental health problems, suicidality and seeking help from general practice: A cross-sectional study (Northern Ireland Schools and Wellbeing study)
Research output: Contribution to journal › Article

Authors' reply re: Incidence and characteristics of pregnancy-related death across ten low- and middle-income geographical regions: secondary analysis of a cluster randomised controlled trial: The underestimated incidence of eclampsia in low-income countries: variation between regions
Baseline sensorimotor GABA levels shape neuroplastic processes induced by motor learning in older adults

Determining the prevalence and severity of cancer cachexia in advanced non-small cell lung cancer and its relationship with chemotherapy outcomes

Differences between homeless and non-homeless people in a matched sample referred for mental health reasons in police custody

Double Dividends and Mixed Blessings: Structural Transformation, Income Inequality and Employment Dynamics

E-cigarette use and associated factors among smokers with severe mental illness

Energy democracy as the right to the city: Urban energy struggles in Berlin and London

Exposure to food in anorexia nervosa and brain correlates of food-related anxiety: findings from a pilot study

Glucocorticoid Excess in Patients with Pheochromocytoma Compared with Paraganglioma and Other Forms of Hypertension

Healthcare utilization and costs of pediatric home mechanical ventilation in Canada

High-resolution PET imaging reveals subtle impairment of the serotonin transporter in an early non-depressed Parkinson’s disease cohort
A multi-level developmental approach to exploring individual differences in Down syndrome: genes, brain, behaviour, and environment
Research output: Contribution to journal » Article

A network-based scan statistic for detecting the exact location and extent of hotspots along urban streets
Research output: Contribution to journal » Article

Aberrant structural connectivity in childhood maltreatment: A meta-analysis
Research output: Contribution to journal » Review article

An observational study to compare the utilisation of computed tomography colonography with optical colonoscopy as the first diagnostic imaging tool in patients with suspected colorectal cancer
Research output: Contribution to journal » Article

Biowarfare, bioterrorism and biocrime: A historical overview on microbial harmful applications
Research output: Contribution to journal » Review article

COVID-19, palliative care and public health
Research output: Contribution to journal » Article

Characterizing Linux-based malware: Findings and recent trends
Research output: Contribution to journal » Article

Classification of STR allelic variation using massively parallel sequencing and assessment of flanking region power
Research output: Contribution to journal » Article

Combined AFM and super-resolution localisation microscopy: Investigating the structure and dynamics of podosomes
Research output: Contribution to journal » Article

Corrections to "Design and Integration of a Parallel, Soft Robotic End-Effector for Extracorporeal Ultrasound"
Research output: Contribution to journal » Article

Defining adaptive capacity in healthcare: A new framework for researching resilient performance
Research output: Contribution to journal » Article

Development and function of human dendritic cells in humanized mice models
Research output: Contribution to journal » Review article
Myopic macular hole detachment associated with intravitreal ocriplasmin
Research output: Contribution to journal › Article

Novel Sensations: Modernist Fiction and the Problem of Qualia
Research output: Book/Report › Book

Novel therapeutic strategies for MLL-rearranged leukemias
Research output: Contribution to journal › Review article

Operationalizing resilient healthcare concepts through a serious video game for clinicians
Research output: Contribution to journal › Article

Reflections on an educational intervention to encourage midwives to work in a continuity of care model – exploration and potential solutions
Research output: Contribution to journal › Article

Severe progressive post-traumatic trigeminal neuropathic pain after total temporomandibular joint replacement - A case report
Van der Cruyssen, F., Verhelst, P. J., Stevens, O., Casselman, J., Renton, T., Piagkou, M., Bonte, B. & Politis, C., Sep 2020, In : Oral and Maxillofacial Surgery Cases. 6, 3, 100175.
Research output: Contribution to journal › Article

Sharing the air: Transient impacts of ride-hailing introduction on pollution in China
Research output: Contribution to journal › Article

Sleep problems and mental health difficulties in older adults who endorse high autistic traits
Research output: Contribution to journal › Article

The double-edged sword of digital self-care: Physician perspectives from Northern Germany
Research output: Contribution to journal › Article

The impact of e-training on tooth wear assessments using the BEWE
Research output: Contribution to journal › Article

Three-tissue compositional analysis reveals in-vivo microstructural heterogeneity of white matter hyperintensities following stroke
Research output: Contribution to journal › Article

Does habit weaken the intention-behaviour relationship? Revisiting the habit-intention interaction hypothesis
Research output: Contribution to journal › Article
Organisation, Emergence and Cambridge Social Ontology
Research output: Contribution to journal › Article

Social positioning and Commons’s monetary theorising
Research output: Contribution to journal › Article

Using nuclear envelope mutations to explore age-related skeletal muscle weakness
Research output: Contribution to journal › Article

Links between central CB1-receptor availability and peripheral endocannabinoids in patients with first episode psychosis
Research output: Contribution to journal › Article

Periodontal Disease and Grip Strength among Older Adults
Aravindakshan, V., Hakeem, F. F. & Sabbah, W., 26 Aug 2020, In : Geriatrics (Switzerland). 5, 3
Research output: Contribution to journal › Article

Access to specialist community alcohol treatment in England, and the relationship with alcohol-related hospitalisation: A qualitative study of service users, service providers and service commissioners
Research output: Contribution to journal › Article

COVID-19 prevalence and mortality in patients with cancer and the effect of primary tumour subtype and patient demographics: a prospective cohort study
Research output: Contribution to journal › Article

Blockchain-Based Comprehensive Network Management in 5G and Beyond
Research output: Contribution to journal › Article

Explaining Image Classifiers Using Statistical Fault Localization
Research output: Chapter in Book/Report/Conference proceeding › Conference paper

Modifying and Evaluating the Opioid Overdose Knowledge Scale for Prescription Opioids: A Pilot Study of the Rx-OOKS
Research output: Contribution to journal › Article
Real-world evaluation of a novel technology for quantitative simultaneous antibody detection against multiple SARS-CoV-2 antigens in a cohort of patients presenting with COVID-19 syndrome
Research output: Contribution to journal › Article

Assessment of radial glia in the frontal lobe of fetuses with Down syndrome
Research output: Contribution to journal › Article

Comorbid depression in medical diseases
Research output: Contribution to journal › Article

Harvest-and-Opportunistically-Relay: Analyses on Transmission Outage and Covertness
Research output: Contribution to journal › Article

Mannose-binding lectin gene polymorphisms in the East Siberia and Russian Arctic populations
Research output: Contribution to journal › Article

Adaptive neuro-fuzzy PID controller based on twin delayed deep deterministic policy gradient algorithm
Research output: Contribution to journal › Article

Implementation outcome instruments for use in physical healthcare settings: a systematic review
Research output: Contribution to journal › Article

Insomnia as a mediating therapeutic target for depressive symptoms: A sub-analysis of participant data from two large randomized controlled trials of a digital sleep intervention
Research output: Contribution to journal › Article

Non-technical skills for urological surgeons (NoTSUS): development and evaluation of curriculum and assessment scale
Research output: Contribution to journal › Review article

Peripheral immunophenotypes in children with multisystem inflammatory syndrome associated with SARS-CoV-2 infection
Research output: Contribution to journal › Article

Taxing the Golden Goose: Reforming Taxation of the Oil Sector in Putin’s Russia
Transcriptional and Functional Analysis of CD1c⁺ Human Dendritic Cells Identifies a CD163⁺ Subset Priming CD8⁺ CD103⁺ T Cells
Research output: Contribution to journal › Article

The Story of Us?: Kynren and the Uses of the Past
Readman, P., Hutton, A., Hulme, T., Freeman, M., Bartie, A. & Fleming, L., 17 Aug 2020, Restaging the Past: Historical Pageants, Culture and Society in Modern Britain. UCL Press
Research output: Chapter in Book/Report/Conference proceeding › Chapter

A National Church tells its story: The English Church Pageant of 1909
Research output: Chapter in Book/Report/Conference proceeding › Chapter

A dynamic COVID-19 immune signature includes associations with poor prognosis
Research output: Contribution to journal › Article

Afterword
Research output: Chapter in Book/Report/Conference proceeding › Chapter

Capgras and Fregoli syndromes: delusion and misidentification
Research output: Contribution to journal › Review article

Cell Biology: An Open Solution for Closed Mitosis
Research output: Contribution to journal › Article

Deep learning-based fetoscopic mosaicking for field-of-view expansion
Research output: Contribution to journal › Article

Ex vivo delivery of Mirocept: A dose finding study in pig kidney after showing a low dose is insufficient to reduce delayed graft function in human kidney
Research output: Contribution to journal › Article

From dysthymia to treatment-resistant depression: evolution of a psychopathological construct
Mental health, smoking, harm reduction and quit attempts - a population survey in England
Research output: Contribution to journal › Article

Null hypothesis significance tests, a misleading approach to scientific knowledge: Some implications for eating disorders research
Research output: Contribution to journal › Editorial

Victory in the East, BBC History Extra Podcast
Fennell, J., 14 Aug 2020
Research output: Non-textual form › Digital or Visual Products

Evidence of inverted gravity-driven variation in predictive sensorimotor function
Research output: Contribution to journal › Article

Compounding crises of social reproduction: Microfinance, over-indebtedness and the COVID-19 pandemic
Research output: Contribution to journal › Comment/debate

Economic evaluations in migraine: systematic literature review and a novel approach
Research output: Contribution to journal › Article

Undernutrition is associated with change in severe dental caries
Research output: Contribution to journal › Article
Association of oral health-related quality of life measures with aggressive and chronic periodontitis

Basophil activation test in cancer patient blood evaluating potential hypersensitivity to an anti-tumor IgE therapeutic candidate

Cardiac structure and function in schizophrenia: cardiac magnetic resonance imaging study

Cardiovascular diseases, lipid-lowering therapies and European registries in the COVID-19 pandemic

Characterizing anhedonia: A systematic review of neuroimaging across the subtypes of reward processing deficits in depression

Clozapine and COVID-19

Combining timed GDNF and ChABC gene therapy to promote long-distance regeneration following ventral root avulsion and repair

Content analysis of bowel protocols for the management of constipation in adult critically ill patients

Convex ancient solutions to curve shortening flow

Customer Participation Variation and Its Impact on Customer Service Performance: Underlying Process and Boundary Conditions
Cytosponge-trefoil factor 3 versus usual care to identify Barrett's oesophagus in a primary care setting: a multicentre, pragmatic, randomised controlled trial
Research output: Contribution to journal › Article

Deep brain stimulation reduces pain in children with dystonia, including in dyskinetic cerebral palsy
Research output: Contribution to journal › Article

Deep learning–based MR fingerprinting ASL ReconStruction (DeepMARS)
Research output: Contribution to journal › Article

Defining causality in COVID-19 and neurological disorders
Research output: Contribution to journal › Editorial

Determinants and prognostic value of echocardiographic first-phase ejection fraction in aortic stenosis
Research output: Contribution to journal › Article

Development and validation of the first consensus gene-expression signature of operational tolerance in kidney transplantation, incorporating adjustment for immunosuppressive drug therapy
Research output: Contribution to journal › Article

Diagnosing adrenal insufficiency using ACTH stimulation test
Research output: Contribution to journal › Letter

Diagnostic accuracy of repeat placental growth factor measurements in women with suspected preeclampsia: a case series study
Research output: Contribution to journal › Article

Differences in the periodontal microbiome of successfully treated and persistent aggressive periodontitis
Research output: Contribution to journal › Article

Dissecting Fibroblast Heterogeneity in Health and Fibrotic Disease
Shaw, T. J. & Rognoni, E., 1 Aug 2020, In : Current Rheumatology Reports. 22, 8, 33.
Research output: Contribution to journal › Review article

Distribution patterns of tau pathology in progressive supranuclear palsy
Editorial: The role of digital technology in children and young people's mental health – a triple-edged sword

Effect of low-dose aspirin on health outcomes: An umbrella review of systematic reviews and meta-analyses

Extent of disease at first cancer presentation and previous anxiety and depressive symptoms: the HUNT study

Extra-corporeal membrane oxygenation for severe respiratory failure in the UK

Facilitating sensorimotor integration via blocked practice underpins imitation learning of atypical biological kinematics in autism spectrum disorder

Genetic analysis in three Egyptian patients with Griscelli syndrome Type 1 reveals new nonsense mutations in MYO5A

Genome-Wide Association Study Meta-Analysis of Stroke in 22 000 Individuals of African Descent Identifies Novel Associations With Stroke
COMPASS, SiGN, and METASTROKE Consortia, 1 Aug 2020, In : Stroke. 51, 8, p. 2454-2463 10 p.

Genome-wide association study of rate of cognitive decline in Alzheimer’s disease patients identifies novel genes and pathways
the Alzheimer’s Disease Genetics Consortium, 1 Aug 2020, In : Alzheimer’s and Dementia. 16, 8, p. 1134-1145 12 p.

Global reporting of cases of COVID-19 in psoriasis and atopic dermatitis: an opportunity to inform care during a pandemic

Glutamatergic and GABAergic reactivity and cognition in 22q11.2 deletion syndrome and healthy volunteers: A randomized double-blind 7-Tesla pharmacological MRS study

Gray matter volume and estimated brain age gap are not linked with sleep-disordered breathing
Guidelines for the content and format of PET brain data in publications and archives: A consensus paper

Harnessing behavioural science in public health campaigns to maintain 'social distancing' in response to the COVID-19 pandemic: key principles

Human disease/clinical medical sciences in dentistry: Current state and future development of undergraduate assessments in the UK and Ireland

Implementing a peer support program for improving university student wellbeing: The experience of program facilitators

In vivo [U-13C]glucose labeling to assess heart metabolism in murine models of pressure and volume overload

Incidence and characteristics of pregnancy-related death across ten low and middle-income geographical regions: secondary analysis of a cluster randomised controlled trial
CRADLE Trial Collaborative Group, 1 Aug 2020, In : BJOG. 127, 9, p. 1082-1089 8 p.

Increases in plasma IgG4/IgE with trilipid vs paraffin/petrolatum-based emollients for dry skin/eczema

Inducible nitric oxide synthase-mediated injury in a mouse model of acute salivary gland dysfunction

Interactions between the Physical and Social Environments with Adverse Pregnancy Events Related to Placental Disorders-A Scoping Review

International Classification of Headache Disorders - ICHD-4 Alpha
Obeticholic acid improves fetal bile acid profile in a mouse model of gestational hypercholanemia
Research output: Contribution to journal › Article

Optical, electrochemical and electrical (nano)biosensors for detection of exosomes: A comprehensive overview
Research output: Contribution to journal › Review article

Optimizing Workflows for Fast and Reliable Metabolic Tumor Volume Measurements in Diffuse Large B Cell Lymphoma
