Factors associated with crack-cocaine early initiation: a Brazilian multicenter study
Research output: Contribution to journal › Article › peer-review

False lumen pressure estimation in type B aortic dissection using 4D flow cardiovascular magnetic resonance: comparisons with aortic growth
Research output: Contribution to journal › Article › peer-review
Fibroblast GATA-4 and GATA-6 promote myocardial adaptation to pressure overload by enhancing cardiac angiogenesis
Research output: Contribution to journal › Article › peer-review

Four-dimensional flow cardiovascular magnetic resonance in tetralogy of Fallot: a systematic review
Research output: Contribution to journal › Review article › peer-review

Functional analysis of a gene-edited mouse model to gain insights into the disease mechanisms of a titin missense variant
Research output: Contribution to journal › Article › peer-review

Further evidence supporting a potential role for ADH1B in obesity
Research output: Contribution to journal › Article › peer-review

GATA3 induces mitochondrial biogenesis in primary human CD4+ T cells during DNA damage
Research output: Contribution to journal › Article › peer-review

Genetic dissection of down syndrome-associated alterations in APP/amyloid-β biology using mouse models
LonDownS Consortium, Dec 2021, In: Scientific Reports. 11, 1, 5736.
Research output: Contribution to journal › Article › peer-review

Genetic impacts on DNA methylation: research findings and future perspectives
Villicaña, S. & Bell, J. T., Dec 2021, In: Genome Biology. 22, 1, 127.
Research output: Contribution to journal › Review article › peer-review

Genetic variant of TTLL11 gene and subsequent ciliary defects are associated with idiopathic scoliosis in a 5-generation UK family
Research output: Contribution to journal › Article › peer-review

Genome-wide association study of response to interval and continuous exercise training: the Predict-HIIT study
Research output: Contribution to journal › Article › peer-review

Genome-wide meta-analysis identifies 127 open-angle glaucoma loci with consistent effect across ancestries
Research output: Contribution to journal › Article › peer-review
Genomic imbalances in the placenta are associated with poor fetal growth
Research output: Contribution to journal › Article › peer-review

Geometric Design-based Dimensional Synthesis of a Novel Metamorphic Multi-fingered Hand with Maximal Workspace
Research output: Contribution to journal › Article › peer-review

Guideline on current good radiopharmacy practice (cGRPP) for the small-scale preparation of radiopharmaceuticals
Research output: Contribution to journal › Article › peer-review

Guy’s and St Thomas NHS Foundation active surveillance prostate cancer cohort: a characterisation of a prostate cancer active surveillance database
Research output: Contribution to journal › Article › peer-review

Hand-portable HPLC with broadband spectral detection enables analysis of complex polycyclic aromatic hydrocarbon mixtures
Research output: Contribution to journal › Article › peer-review

Health impact assessment to predict the impact of tobacco price increases on COPD burden in Italy, England and Sweden
Research output: Contribution to journal › Article › peer-review

High intake of vegetables is linked to lower white blood cell profile and the effect is mediated by the gut microbiome
Research output: Contribution to journal › Article › peer-review

Hybrid mosquitoes? Evidence from rural Tanzania on how local communities conceptualize and respond to modified mosquitoes as a tool for malaria control
Research output: Contribution to journal › Article › peer-review

Identification of 38 novel loci for systemic lupus erythematosus and genetic heterogeneity between ancestral groups
Research output: Contribution to journal › Article › peer-review

Identifying contextual determinants of problems in tuberculosis care provision in South Africa: a theory-generating case study
Research output: Contribution to journal › Article › peer-review
Improving nursing documentation for surgical patients in a referral hospital in Freetown, Sierra Leone: protocol for assessing feasibility of a pilot multifaceted quality improvement hybrid type project
