Research output: Contribution to journal › Review article

Acute oxytocin effects in inferring others' beliefs and social emotions in people at clinical high risk for psychosis

Research output: Contribution to journal › Article

Adipose tissue morphology, imaging and metabolomics predicting cardiometabolic risk and family history of type 2 diabetes in non-obese men

Research output: Contribution to journal › Article

Author Correction: Report from a multidisciplinary meeting on anxiety as a non-motor manifestation of Parkinson's disease (npj Parkinson's Disease, (2019), 5, 1, (30), 10.1038/s41531-019-0102-8)

Research output: Contribution to journal › Comment/debate

Beta amyloid aggregates induce sensitised TLR4 signalling causing long-term potentiation deficit and rat neuronal cell death

Research output: Contribution to journal › Article

Butyrophilin-like proteins display combinatorial diversity in selecting and maintaining signature intraepithelial γδ T cell compartments

Research output: Contribution to journal › Article

Cervicovaginal natural antimicrobial expression in pregnancy and association with spontaneous preterm birth

Research output: Contribution to journal › Article
Colonic microbiota is associated with inflammation and host epigenomic alterations in inflammatory bowel disease

Research output: Contribution to journal › Article

Dementia in long-term Parkinson's disease patients: a multicentre retrospective study

Research output: Contribution to journal › Article

Do AKT1, COMT and FAAH influence reports of acute cannabis intoxication experiences in patients with first episode psychosis, controls and young adult cannabis users?

Research output: Contribution to journal › Article

Dynamic network properties of the interictal brain determine whether seizures appear focal or generalised

Research output: Contribution to journal › Article

Exercise training results in depot-specific adaptations to adipose tissue mitochondrial function

Research output: Contribution to journal › Article

Genetic aetiology of self-harm ideation and behaviour

Research output: Contribution to journal › Article

Genome-wide association study of MRI markers of cerebral small vessel disease in 42,310 participants

Research output: Contribution to journal › Article

Genomic influences on self-reported childhood maltreatment

Research output: Contribution to journal › Article

Impulsivity is a heritable trait in rodents and associated with a novel quantitative trait locus on chromosome 1

Research output: Contribution to journal › Article

Micronutrients in critically ill patients with severe acute kidney injury – a prospective study

Multi-colour extrusion fused deposition modelling: a low-cost 3D printing method for anatomical prostate cancer models

PET imaging shows no changes in TSPO brain density after IFN-α immune challenge in healthy human volunteers

Perceived non-smoking norms and motivation to stop smoking, quit attempts, and cessation: a cross-sectional study in England

Preclinical development of a miR-132 inhibitor for heart failure treatment

Predicting change trajectories of neuroticism from baseline brain structure using whole brain analyses and latent growth curve models in adolescents

Quality of surgical care can impact survival in patients with bladder cancer after robot-assisted radical cystectomy: results from the International Robotic Cystectomy Consortium

Regulatory sites for splicing in human basal ganglia are enriched for disease-relevant information
Reproducibility of flutter-range vibrotactile detection and discrimination thresholds
Research output: Contribution to journal › Article

Significant out-of-sample classification from methylation profile scoring for amyotrophic lateral sclerosis
Research output: Contribution to journal › Article

Synchronization of the Normal Human Peripheral Immune System: A Comprehensive Circadian Systems Immunology Analysis
Research output: Contribution to journal › Article

Tesco Grocery 1.0, a large-scale dataset of grocery purchases in London
Research output: Contribution to journal › Article

Th1 responses in vivo require cell-specific provision of OX40L dictated by environmental cues
Research output: Contribution to journal › Article

The neurobiology of treatment-resistant schizophrenia: paths to antipsychotic resistance and a roadmap for future research
Research output: Contribution to journal › Review article

Transcriptomic and cellular decoding of regional brain vulnerability to neurogenetic disorders
Research output: Contribution to journal › Article

Why does the Aβ peptide of Alzheimer share structural similarity with antimicrobial peptides?
Research output: Contribution to journal › Review article

Capgras delusion in anti-NMDAR encephalitis: A case of autoimmune psychosis
Research output: Contribution to journal › Letter

On bubble collisions in strongly supercooled phase transitions
Research output: Contribution to journal › Article
Opinion dynamics with emergent collective memory: A society shaped by its own past
Research output: Contribution to journal › Article

High-throughput multi-residue quantification of contaminants of emerging concern in wastewaters enabled using direct injection liquid chromatography-tandem mass spectrometry
Research output: Contribution to journal › Article

The Data Journalism Handbook: Towards A Critical Data Practice
Research output: Book/Report › Book

A comparison of quality flaws and technical debt in model transformation specifications
Research output: Contribution to journal › Article

A deformable tetrahedron rolling mechanism (DTRM) based on URU branch
Research output: Contribution to journal › Article

Geometrical revelation of correlated characteristics of the ray and axis order of the Plücker coordinates in line geometry
Research output: Contribution to journal › Article

Misleading Silence in Mistake
Research output: Chapter in Book/Report/Conference proceeding › Chapter

Reassembling Scholarly Communications: Histories, Infrastructures, and Global Politics of Open Access

Research output: Contribution to journal › Article

Characterization of two siderophores produced by Bacillus megaterium: A preliminary investigation into their potential as therapeutic agents
Research output: Contribution to journal › Article

Customer capabilities for solution offerings in business markets
Research output: Contribution to journal › Article
High-order based revelation of bifurcation of novel Schatz-inspired metamorphic mechanisms using screw theory
Research output: Contribution to journal › Article

The Red Mirror: Putin's Leadership and Russia's Insecure Identity
Research output: Book/Report › Book

The experience of trial participation, treatment approaches and perceptions of change among participants with dissociative seizures within the CODES randomized controlled trial: A qualitative study
Research output: Contribution to journal › Article

The type 2 diabetes gene product STARD10 is a phosphoinositide-binding protein that controls insulin secretory granule biogenesis
Research output: Contribution to journal › Article

Trends and predictors of exclusive e-cigarette use, exclusive smoking and dual use among youth in Canada
Research output: Contribution to journal › Article

MODERN BRAZIL: A very short introduction
Research output: Book/Report › Book

Measuring employee-tourist encounter experience value: A big data analytics approach
Research output: Contribution to journal › Article

Exposure to food in anorexia nervosa and brain correlates of food-related anxiety: findings from a pilot study
Research output: Contribution to journal › Article

Human telomere double G-quadruplex recognition by berberine-bisquinolinium imaging conjugates in vitro and in cells
Research output: Contribution to journal › Article

Loneliness and social disconnectedness in pathological social withdrawal
Research output: Contribution to journal › Article

Open registries as an enabler of maritime sanctions evasion
Research output: Contribution to journal › Article
Temperature and solvent facilitated extrusion based 3D printing for pharmaceuticals
Research output: Contribution to journal › Article

A multi-level developmental approach to exploring individual differences in Down syndrome: genes, brain, behaviour, and environment
Research output: Contribution to journal › Article

Characterizing Linux-based malware: Findings and recent trends
Research output: Contribution to journal › Article

Defining adaptive capacity in healthcare: A new framework for researching resilient performance
Research output: Contribution to journal › Article

Effects of grain source and processing methods on the nutritional profile and digestibility of grain amaranth
Research output: Contribution to journal › Article

Generalized Richardson-Lucy (GRL) for analyzing multi-shell diffusion MRI data
Research output: Contribution to journal › Article

How do people interpret and respond to self-report sitting time questionnaires? a think-aloud study
Research output: Contribution to journal › Article
