Research outputs
Listing of Research outputs

Understanding the impact of host facial characteristics on Airbnb pricing: Integrating facial image analytics into tourism research
Research output: Contribution to journal › Article

Experimental Devices Versus Hand-Sewn Anastomosis of the Aorta: A Systematic Review and Meta-Analysis
Research output: Contribution to journal › Review article

Morphology, gelation and cytotoxicity evaluation of D-α-Tocopheryl polyethylene glycol succinate (TPGS) – Tetronic mixed micelles
Research output: Contribution to journal › Article

Evidence for the presence of air pollution nanoparticles in placental tissue cells
Research output: Contribution to journal › Article

A Fuzzy Approach to Long-Term Care Benefit Eligibility; an Italian Case-Study
Research output: Chapter in Book/Report/Conference proceeding › Chapter

An Introduction to Screw Theory
Research output: Chapter in Book/Report/Conference proceeding › Chapter

Clinical Trials on Management of Pain in Parkinson's Disease
Research output: Chapter in Book/Report/Conference proceeding › Chapter

Compliance Parameterization and Optimization of Compliant Parallel Mechanisms
Research output: Chapter in Book/Report/Conference proceeding › Chapter

Conceptual Design of Compliant Parallel Mechanisms
Research output: Chapter in Book/Report/Conference proceeding › Chapter

Construction of Compliant Mechanisms
Research output: Chapter in Book/Report/Conference proceeding › Chapter

Large Deformation Analysis of Compliant Parallel Mechanisms
Molecular Simulations Guidelines for Biological Nanomaterials: From Peptides to Membranes
Research output: Chapter in Book/Report/Conference proceeding › Chapter

Screw Representation of Flexible Elements
Research output: Chapter in Book/Report/Conference proceeding › Chapter

Stiffness Construction and Decomposition of Compliant Parallel Mechanisms
Research output: Chapter in Book/Report/Conference proceeding › Chapter

DOMESTIC AND GLOBAL DIMENSIONS OF POSTCOMMUNIST INSTITUTION-BUILDING
Sharafutdinova, G., Jan 2021, In : COMPARATIVE POLITICS.
Research output: Contribution to journal › Review article

Exosome-mediated RNAi of PAK4 prolongs survival of pancreatic cancer mouse model after loco-regional treatment
Research output: Contribution to journal › Article

What kind of smoking identity following quitting would elevate smokers relapse risk?
Research output: Contribution to journal › Article

Choosing Among Alternative New Product Development Projects: The Role of Heuristics
Research output: Contribution to journal › Article

Christian Art
Research output: Chapter in Book/Report/Conference proceeding › Entry in encyclopedia/dictionary

Courting Sadat: The Heath Government and Britain's Arms Sales to Egypt, 1970-1973
Hughes, G., 2021, In : INTERNATIONAL HISTORY REVIEW.
Research output: Contribution to journal › Article

Perfecting the Union: National and State Authority in the US Constitution
Research output: Book/Report › Book

Team competition when there is within team inequality
Research output: Contribution to journal › Article

The Visual Commentary on Scripture: Principles and Possibilities
Research output: Chapter in Book/Report/Conference proceeding › Chapter
Trans Identity Narratives in Collaborative Museum Exhibitions: The Challenge of Representing Heterogeneity and Intragroup Divisions
Research output: Chapter in Book/Report/Conference proceeding › Chapter

What Is That To You? A Response to Peter Ochs’s Religion Without Violence
Research output: Contribution to journal › Article

La salud mental del personal de servicios de emergencia en el Biobanco del Reino Unido: una comparación con la población trabajadora
Research output: Contribution to journal › Article

Esoteric Theravada: THE STORY OF THE FORGOTTEN MEDITATION TRADITION OF SOUTHEAST ASIA
Crosby, K., 22 Dec 2020, 320 p.
Research output: Book/Report › Book

Making use of evidence in commissioning practice: insights into the understanding of a telecare study’s findings
Research output: Contribution to journal › Article

Airborne emissions of microplastic fibres from domestic laundry dryers
Research output: Contribution to journal › Article

A Mechanically Intelligent Crawling Robot Driven by Shape Memory Alloy and Compliant Bistable Mechanism
Research output: Contribution to journal › Article

A genome-wide cross-phenotype meta-analysis of the association of blood pressure with migraine
The International Headache Genetics Consortium & the 23andMe Research Team, 1 Dec 2020, In : Nature Communications. 11, 1, 3368.
Research output: Contribution to journal › Article

A multiethnic genome-wide analysis of 44,039 individuals identifies 41 new loci associated with central corneal thickness
Research output: Contribution to journal › Article

A pheno-m-wide association and Mendelian Randomisation study of polygenic risk for depression in UK Biobank
Research output: Contribution to journal › Article

A smart switching system to enable automatic tuning and detuning of metamaterial resonators in MRI scans
Research output: Contribution to journal › Article
AEDGE: Atomic Experiment for Dark Matter and Gravity Exploration in Space

Research output: Contribution to journal › Review article

Accurate deep neural network inference using computational phase-change memory

Research output: Contribution to journal › Article

Acute heart failure

Research output: Contribution to journal › Review article

Acute oxytocin effects in inferring others' beliefs and social emotions in people at clinical high risk for psychosis

Research output: Contribution to journal › Article

Adipose tissue morphology, imaging and metabolomics predicting cardiometabolic risk and family history of type 2 diabetes in non-obese men

Research output: Contribution to journal › Article

Adjustment of DXA BMD measurements for anthropometric factors and its impact on the diagnosis of osteoporosis

Research output: Contribution to journal › Article

Aerobic exercise impacts the anterior cingulate cortex in adolescents with subthreshold mood syndromes: a randomized controlled trial study

Research output: Contribution to journal › Article

An in vitro assessment of the physical properties of manually- mixed and encapsulated glass-ionomer cements
Al-Taee, L., Deb, S. & Banerjee, A., 1 Dec 2020, In : BDJ Open. 6, 1, 12.

Research output: Contribution to journal › Article

Antidepressants during and after Menopausal Transition: A Systematic Review and Meta-Analysis
Wu, C-K., Tseng, P-T., Wu, M-K., Li, D-J., Chen, T-Y., Kuo, F-C., Stubbs, B., Carvalho, A. F., Chen, Y-W., Lin, P-Y., Cheng, Y-S. & Sun, C-K., 1 Dec 2020, In : Scientific Reports. 10, 1, p. 8026 8026.

Research output: Contribution to journal › Article
Characterization of the development of the mouse cochlear epithelium at the single cell level
Mann, Z., 1 Dec 2020, In : Nature Communications. 11, 1, 2389.
Research output: Contribution to journal › Article

Colonic microbiota is associated with inflammation and host epigenomic alterations in inflammatory bowel disease
Research output: Contribution to journal › Article

Compositional and functional differences of the mucosal microbiota along the intestine of healthy individuals
Research output: Contribution to journal › Article

Conductive pattern, electrical and mechanical characterisation of gold nanorods inside porous alumina template
Research output: Contribution to journal › Article

Control of protein palmitoylation by regulating substrate recruitment to a zDHHC-protein acyltransferase
Research output: Contribution to journal › Article

Research output: Contribution to journal › Comment/debate

Dementia in long-term Parkinson’s disease patients: a multicentre retrospective study
Research output: Contribution to journal › Article

Development of a simple, sensitive and selective colorimetric aptasensor for the detection of cancer-derived exosomes
Research output: Contribution to journal › Article

Digital phenotyping, behavioral sensing, or personal sensing: names and transparency in the digital age
Research output: Contribution to journal › Comment/debate

Do AKT1, COMT and FAAH influence reports of acute cannabis intoxication experiences in patients with first episode psychosis, controls and young adult cannabis users?
Research output: Contribution to journal › Article

Dynamic network properties of the interictal brain determine whether seizures appear focal or generalised
Research output: Contribution to journal › Article
Emerging functional connectivity differences in newborn infants vulnerable to autism spectrum disorders
Research output: Contribution to journal › Article

Equine penile squamous cell carcinoma: expression of biomarker proteins and EcPV2
Research output: Contribution to journal › Article

Error propagation analysis of seven partial volume correction algorithms for $^{18}$FTHK-5351 brain PET imaging
Research output: Contribution to journal › Article

Exercise training results in depot-specific adaptations to adipose tissue mitochondrial function
Research output: Contribution to journal › Article

Experimental Demonstration of Supervised Learning in Spiking Neural Networks with Phase-Change Memory Synapses
Research output: Contribution to journal › Article

Generation and evaluation of artificial mental health records for Natural Language Processing
Research output: Contribution to journal › Article

Genetic aetiology of self-harm ideation and behaviour
Research output: Contribution to journal › Article

Genetic overlap between psychotic experiences in the community across age and with psychiatric disorders
Barkhuizen, W., Pain, O., Dudbridge, F. & Ronald, A., 1 Dec 2020, In : Translational psychiatry. 10, 1, 86.
Research output: Contribution to journal › Article

Genetic susceptibility, inflammation and specific types of depressive symptoms: evidence from the English Longitudinal Study of Ageing
Research output: Contribution to journal › Article

Genome-wide association meta-analysis of corneal curvature identifies novel loci and shared genetic influences across axial length and refractive error
 Consortium for Refractive Error and Myopia (CREAM) & UK Biobank Eye and Vision Consortium, 1 Dec 2020, In : Communications Biology. 3, 1, 133.
Research output: Contribution to journal › Article

Genome-wide association study of MRI markers of cerebral small vessel disease in 42,310 participants
Research output: Contribution to journal › Article
Genomic influences on self-reported childhood maltreatment

Research output: Contribution to journal › Article

Homologous recombination DNA repair deficiency and PARP inhibition activity in primary triple negative breast cancer

Research output: Contribution to journal › Article

IRAP-dependent endosomal T cell receptor signalling is essential for T cell responses

Research output: Contribution to journal › Article

Impulsivity is a heritable trait in rodents and associated with a novel quantitative trait locus on chromosome 1

Research output: Contribution to journal › Article

Infant EEG theta modulation predicts childhood intelligence

Research output: Contribution to journal › Article

Information Cascades and the Collapse of Cooperation

Research output: Contribution to journal › Article

Inhibition of histone deacetylation rescues phenotype in a mouse model of Birk-Barel intellectual disability syndrome

Research output: Contribution to journal › Article

Inside the hypoxic tumour: reprogramming of the DDR and radioresistance
Begg, K. & Tavassoli, M., 1 Dec 2020, In : Cell Death Discovery. 6, 1, 77.

Research output: Contribution to journal › Review article

Integration of molecular profiles in a longitudinal wellness profiling cohort

Research output: Contribution to journal › Article
Large database for the analysis and prediction of spliced and non-spliced peptide generation by proteasomes
Specht, G., Roetschke, H. P., Mansurkhodzhaev, A., Henklein, P., Textoris-Taube, K., Urlaub, H., Mishto, M. & Liepe, J.,
1 Dec 2020, In: Scientific Data. 7, 1, p. 146 146.
Research output: Contribution to journal › Article

Links between central CB1-receptor availability and peripheral endocannabinoids in patients with first episode psychosis
Dickens, A. M., Borgan, F., Laurikainen, H., Lamichhane, S., Marques, T., Rönkkö, T., Veronese, M., Lindeman, T.,
Research output: Contribution to journal › Article

Membrane protein mediated bilayer communication in networks of droplet interface bilayers
Haylock, S., Friddin, M. S., Hindley, J. W., Rodríguez, E., Charalambous, K., Booth, P. J., Barter, L. M. C. & Ces, O., 1 Dec 2020, In: Communications Chemistry. 3, 1, 77.
Research output: Contribution to journal › Article

Micronutrients in critically ill patients with severe acute kidney injury – a prospective study
Research output: Contribution to journal › Article

Modulation of Rab7a-mediated growth factor receptor trafficking inhibits islet beta cell apoptosis and autophagy under conditions of metabolic stress
Research output: Contribution to journal › Article

Multi-colour extrusion fused deposition modelling: a low-cost 3D printing method for anatomical prostate cancer models
Research output: Contribution to journal › Article

PET imaging shows no changes in TSPO brain density after IFN-α immune challenge in healthy human volunteers
Nettis, M. A., Veronese, M., Nikkheslat, N., Mariani, N., Lombardo, G., Sforzini, L., Enache, D., Harrison, N. A.,
Turkheimer, F. E., Mondelli, V. & Pariante, C. M., 1 Dec 2020, In: Translational psychiatry. 10, 1, 89.
Research output: Contribution to journal › Article

PepMusic: motivational qualities of songs for daily activities
Research output: Contribution to journal › Article

Perceived non-smoking norms and motivation to stop smoking, quit attempts, and cessation: a cross-sectional study in England
Research output: Contribution to journal › Article

Pericyte FAK negatively regulates Gas6/Axl signalling to suppress tumour angiogenesis and tumour growth
Research output: Contribution to journal › Article

Phase I clinical trial repurposing all-trans retinoic acid as a stromal targeting agent for pancreatic cancer
Sarker, D., 1 Dec 2020, In: Nature Communications. 11, 1, 4841.
Research output: Contribution to journal › Article
Pitfalls in assessing stromal tumor infiltrating lymphocytes (sTILs) in breast cancer
the International Immuno-Oncology Biomarker Working Group, 1 Dec 2020, In : npj Breast Cancer. 6, 1, 17.
Research output: Contribution to journal › Article

Polygenic risk for anxiety influences anxiety comorbidity and suicidal behavior in bipolar disorder
Bipolar Genome Study Consortium (BiGS), 1 Dec 2020, In : Translational psychiatry. 10, 1, 298.
Research output: Contribution to journal › Article

Potential of animal models for advancing the understanding and treatment of pain in Parkinson's disease
Research output: Contribution to journal › Review article

Practical issues and limitations of brain attenuation correction on a simultaneous PET-MR scanner
Research output: Contribution to journal › Article

Preclinical development of a miR-132 inhibitor for heart failure treatment
Research output: Contribution to journal › Article

Predicting change trajectories of neuroticism from baseline brain structure using whole brain analyses and latent growth curve models in adolescents
Research output: Contribution to journal › Article

Prolonged ursodeoxycholic acid administration reduces acute ischaemia-induced arrhythmias in adult rat hearts
Research output: Contribution to journal › Article

Quality of surgical care can impact survival in patients with bladder cancer after robot-assisted radical cystectomy: results from the International Robotic Cystectomy Consortium
Research output: Contribution to journal › Article

RSPO3 impacts body fat distribution and regulates adipose cell biology in vitro
Research output: Contribution to journal › Article

Recapitulating T cell infiltration in 3D psoriatic skin models for patient-specific drug testing
Research output: Contribution to journal › Article
Reduced Brd1 expression leads to reversible depression-like behaviors and gene-expression changes in female mice
Research output: Contribution to journal › Article

Reductions in task positive neural systems occur with the passage of time and are associated with changes in ongoing thought
Research output: Contribution to journal › Article

Regulatory sites for splicing in human basal ganglia are enriched for disease-relevant information
Research output: Contribution to journal › Article

Reproducibility of flutter-range vibrotactile detection and discrimination thresholds
Research output: Contribution to journal › Article

Revealing the complexity of ionic liquid–protein interactions through a multi-technique investigation
Research output: Contribution to journal › Article

SARS-CoV-2 spike protein predicted to form complexes with host receptor protein orthologues from a broad range of mammals
Research output: Contribution to journal › Article

School-related physical activity interventions and mental health among children: a systematic review and meta-analysis
Research output: Contribution to journal › Review article

Screening of Parkinsonian subtle fine-motor impairment from touchscreen typing via deep learning
Research output: Contribution to journal › Article

Seriality, miscellaneity, and compression in nineteenth-century print
Research output: Contribution to journal › Article

Significant out-of-sample classification from methylation profile scoring for amyotrophic lateral sclerosis
Research output: Contribution to journal › Article
The neurobiology of treatment-resistant schizophrenia: paths to antipsychotic resistance and a roadmap for future research
Research output: Contribution to journal › Review article

The type of stress matters: repeated injection and permanent social isolation stress in male mice have a differential effect on anxiety- and depressive-like behaviours and associated biological alterations
Research output: Contribution to journal › Article

Tonic NMDA receptor signalling shapes endosomal organisation in mammalian cells
Glebov, O. O., 1 Dec 2020, In : Scientific Reports. 10, 1, 9315.
Research output: Contribution to journal › Article

Transcriptional activity and strain-specific history of mouse pseudogenes
Research output: Contribution to journal › Article

Transcriptomic and cellular decoding of regional brain vulnerability to neurogenetic disorders
Research output: Contribution to journal › Article

Using Policy Labs as a process to bring evidence closer to public policymaking: a guide to one approach
Research output: Contribution to journal › Article

Waterborne copper exposure up-regulated lipid deposition through the methylation of GRP78 and PGC1α of grass carp Ctenopharyngodon Idella
Research output: Contribution to journal › Article

Whole-blood expression of inflammasome- and glucocorticoid-related mRNAs correctly separates treatment-resistant depressed patients from drug-free and responsive patients in the BIODEP study
the Neuroimmunology of Mood Disorders and Alzheimer’s Disease (NIMA) Consortium, 1 Dec 2020, In : Translational psychiatry. 10, 1, 232.
Research output: Contribution to journal › Article

Why does the Aβ peptide of Alzheimer share structural similarity with antimicrobial peptides?
Research output: Contribution to journal › Review article

Capgras delusion in anti-NMDAR encephalitis: A case of autoimmune psychosis
Research output: Contribution to journal › Letter
Early postnatal maternal trait anxiety is associated with the behavioural outcomes of children born preterm <33 weeks
Research output: Contribution to journal › Article

Galactic center constraints on self-interacting sterile neutrinos from fermionic dark matter ("ino") models
Research output: Contribution to journal › Article

Imaging and tracking an electrostatic charge micro-domain by Kelvin force microscopy as evidence of water adsorption on mica surface
Research output: Contribution to journal › Article

Lack of association between Mannose Binding Lectin-2 gene polymorphisms and periodontitis: A meta-analysis
Research output: Contribution to journal › Article

Moving cancer prevention and care forward in Saudi Arabia
Research output: Contribution to journal › Article

On bubble collisions in strongly supercooled phase transitions
Research output: Contribution to journal › Article

Positive memory training for the treatment of depression in schizophrenia: A randomised controlled trial
Research output: Contribution to journal › Article

Prevalence and correlates of substance use among transgender adults: A systematic review
Research output: Contribution to journal › Review article

Substantially thinner internal granular layer and reduced molecular layer surface in the cerebellar cortex of the Tc1 mouse model of down syndrome – a comprehensive morphometric analysis with active staining contrast-enhanced MRI
Research output: Contribution to journal › Article

The developing Human Connectome Project (dHCP) automated resting-state functional processing framework for newborn infants
Research output: Contribution to journal › Article

The role of frontline community health workers in the non-communicable disease screening program in Assam, India: Current trends, challenges and scope - A time and motion study
Triple therapy with pravastatin, low molecular weight heparin and low dose aspirin improves placental haemodynamics and pregnancy outcomes in obstetric antiphospholipid syndrome in mice and women through a nitric oxide-dependent mechanism

The Unknown Enemy: Counterinsurgency and the Illusion of Control

Brain structure and habitat: Do the brains of our children tell us where they have been brought up?

Mineralogy, geochemistry and toxicity of size-segregated respirable deposited dust in underground coal mines

Identification of Proteins Associated with the Early Restoration of Insulin Sensitivity After Biliopancreatic Diversion
Research output: Contribution to journal › Article

Methylphenidate-Related Improvements in Math Performance Cannot Be Explained by Better Cognitive Functioning or Higher Academic Motivation: Evidence From a Randomized Controlled Trial
Research output: Contribution to journal › Article

Platinum(II) dithiocarbamate complexes [Pt(S2CNR2)Cl(PAr3)] as anticancer and DNA-damaging agents
Research output: Contribution to journal › Article

The Data Journalism Handbook: Towards A Critical Data Practice
Research output: Book/Report › Book

Winnicott’s Concept of ‘Holding’ as applied to Serious Physical Illness
Research output: Contribution to journal › Article

A comparison of quality flaws and technical debt in model transformation specifications
Research output: Contribution to journal › Article

A deformable tetrahedron rolling mechanism (DTRM) based on URU branch
Research output: Contribution to journal › Article

An epigenome-wide association study of Alzheimer’s disease blood highlights robust DNA hypermethylation in the HOXB6 gene
Research output: Contribution to journal › Article

Behavioral and Social Research to Accelerate the Geroscience Translation Agenda
Research output: Contribution to journal › Short survey

Day and night comfort and stability on the body of four wearable devices for seizure detection: A direct user-experience on behalf of the RADAR-CNS consortium, Nov 2020, In : Epilepsy and Behavior. 112, 107478.
Research output: Contribution to journal › Article

Diagnostic biomarkers for obsessive-compulsive disorder: A reasonable quest or ignis fatuus?
Research output: Contribution to journal › Review article
Electronic consenting for conducting research remotely: A review of current practice and key recommendations for using e-consenting
Research output: Contribution to journal › Review article

Geometrical revelation of correlated characteristics of the ray and axis order of the Plücker coordinates in line geometry
Research output: Contribution to journal › Article

Interplay between oxidative damage, the redox status, and metabolic biomarkers during long-term fasting
Research output: Contribution to journal › Article

Mapping epilepsy-specific patient-reported outcome measures for children to a proposed core outcome set for childhood epilepsy
Research output: Contribution to journal › Article

Micro-patterned surface construction on BCP ceramics and the regulation on inflammation-involved osteogenic differentiation
Research output: Contribution to journal › Article

Obstetric Anal Sphincter Injury (OASI) Care Bundle: Response to a critical review
Research output: Contribution to journal › Review article

Online resources and apps to aid self-diagnosis and help seeking in the perinatal period: A descriptive survey of women's experiences
Research output: Contribution to journal › Article

Rationale and design of the Medical Research Council's Precision Medicine with Zibotentan in Microvascular Angina (PRIZE) trial: Precision medicine for microvascular angina
Research output: Contribution to journal › Article

Trait impulsivity correlates with active myoclonic seizures in genetic generalized epilepsy
Research output: Contribution to journal › Article

Young people's understanding, attitudes and involvement in decision-making about genome sequencing for rare diseases: A qualitative study with participants in the UK 100, 000 Genomes Project
Research output: Contribution to journal › Article
Using epidemiology to estimate the impact and burden of exposure to air pollutants
Research output: Contribution to journal › Article

What does success look like for air quality policy? A perspective
Research output: Contribution to journal › Article

Misleading Silence in Mistake
