This article, as published in issue 2 of European Psychiatry, lacked necessary corrections due to a production error. The publisher regrets the mistake.

In the Methods section, the following studies and checklists should have been capitalized:

- Study of Twin Adults: Genes and Environment (STAGE)
- Women, Co-occurring Disorders, and Violence Study (WCDVS)
- Life Stressor Checklist-Revised (LSC-R)
- Obsessive-Compulsive Inventory-Revised (OCI-R)

The title of Table 1 should have read: Sample characteristics and gender differences in OCS severity, depression severity and stressful life events (SLEs).

The abbreviations DZ: dizygotic, and SD: standard deviation are here corrected.

In Tables 2 and 3: the $R^2$ value was mistakenly noted as $r$.
