

## 2 MULTIVARIATE LOGISTIC REGRESSION MODELS - COEFFICIENTS

Summary of multivariate logistic regression models presented in § 5.1. This table shows regression coefficients, standard errors, p-values and 95% confidence interval. Baseline values are gender[female], religion[non-religious], subject[Business and administrative studies], political party affiliation[Liberal Democrats], political affiliation[right].

	Model 1					Model 2				
	Coeffs	SE	p	95% CI		Coeffs	SE	p	95% CI	
				LL	UL				LL	UL
