

This is to certify that

Estrella Sendra

was nominated for a
King's Education Award 2024

April 2024

King's College London

I believe my nominee should receive this award because, during the module studying, she was always encouraging and supporting me on time. This makes me feel safe and stable enough to keep going planning and managing the event. Her support is not limited to academic level, but mental health as well.

Estrella has been an extremely supportive lecturer and seminar leader. Estrella was an exceptional teacher whose dedication and passion for education were truly commendable. Her engaging teaching style created a positive and dynamic learning environment for her students. With a wealth of knowledge and a nurturing approach, she went above and beyond to ensure that each student not only understood the subject matter but also developed a genuine love for learning. Estrella's commitment to fostering a supportive classroom community and her ability to inspire students made her an invaluable asset to the educational community. We were fortunate to have had such a dedicated educator like Estrella shaping the minds and hearts of our students.
